Ancient History

As we begin the school year, I would like to provide you with information of what to expect in your 6th Grade Social Science class.

About the class

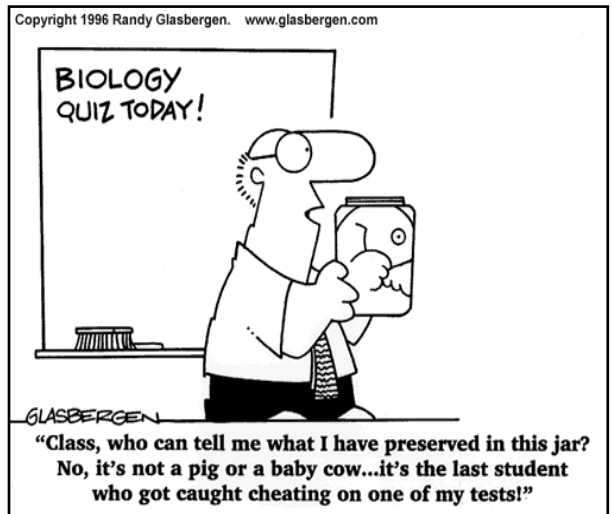

We will begin the school year by developing the skills necessary to learning and understanding ancient history. These skills include the ability to read maps, charts, and graphs; how to distinguish geographical features; how to answer essential questions in history (who, what, when, where, why, and how); and more. We will explore the pre-historic and ancient civilizations that laid the foundation for modern civilizations. Topics to be studied throughout the year are supported by the California History-Social Science Framework. They include:

- Development of humankind (Standard 6.1)
- Ancient civilizations of Mesopotamia, Egypt, and Kush (Standard 6.2)
- Ancient Hebrews (6.3)
- Ancient Greece (Standard 6.4)
- Early Civilizations of India (Standard 6.5)
- Early Civilizations of China (Standard 6.6)
- Ancient Rome (Standard 6.7)
