

LCFF Budget Overview for Parents

Local Educational Agency (LEA) Name: Advanced Learning Academy

CDS Code: 30-66670-0135897

School Year: 2025-26

LEA contact information:

Amy Scruton

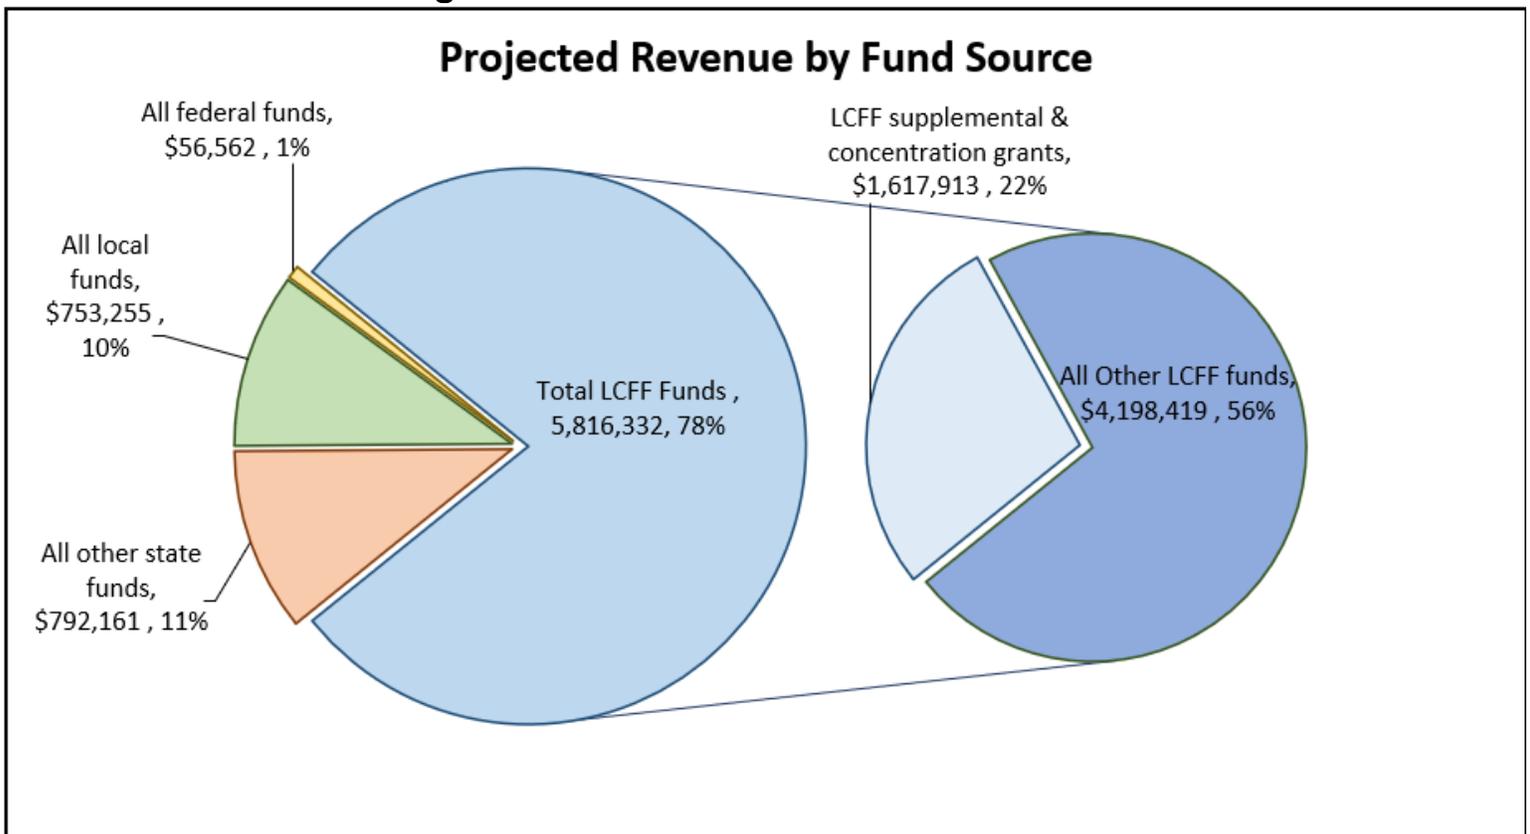

Principal

amy.scruton@sausd.us

(714) 564-2100

School districts receive funding from different sources: state funds under the Local Control Funding Formula (LCFF), other state funds, local funds, and federal funds. LCFF funds include a base level of funding for all LEAs and extra funding - called "supplemental and concentration" grants - to LEAs based on the enrollment of high needs students (foster youth, English learners, and low-income students).

Budget Overview for the 2025-26 School Year

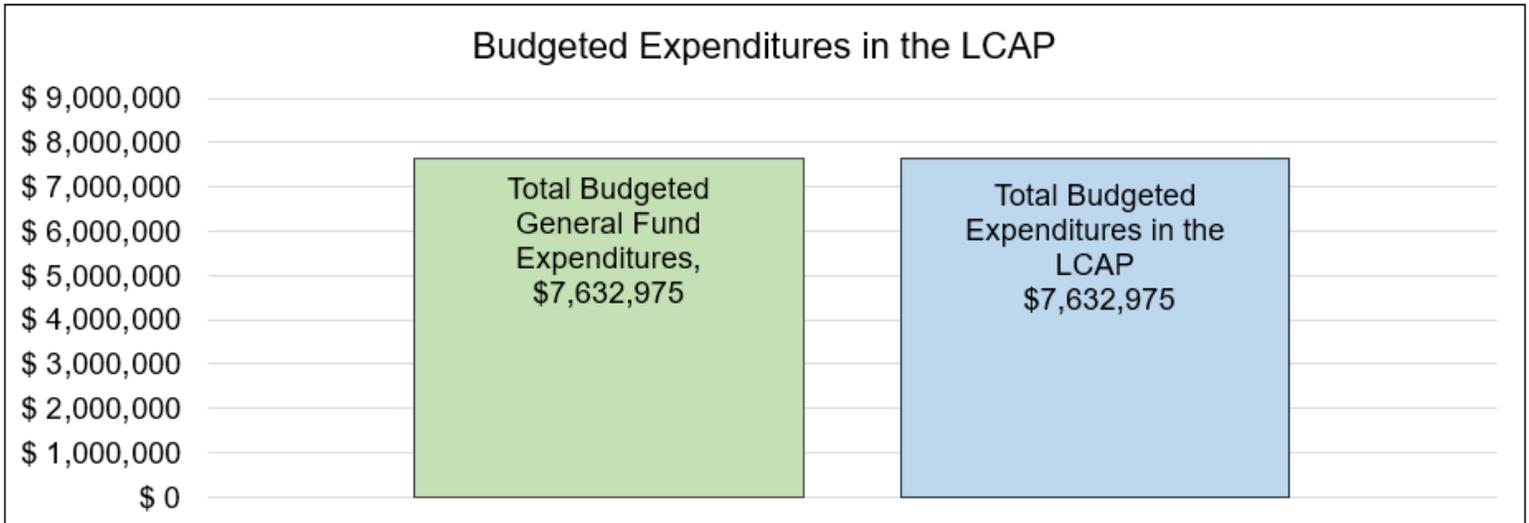

This chart shows the total general purpose revenue Advanced Learning Academy expects to receive in the coming year from all sources.

The text description for the above chart is as follows: The total revenue projected for Advanced Learning Academy is \$7,418,310, of which \$5,816,332 is Local Control Funding Formula (LCFF), \$792,161 is other state funds, \$753,255 is local funds, and \$56,562 is federal funds. Of the \$5,816,332 in LCFF Funds, \$1,617,913 is generated based on the enrollment of high needs students (foster youth, English learner, and low-income students).

LCFF Budget Overview for Parents

The LCFF gives school districts more flexibility in deciding how to use state funds. In exchange, school districts must work with parents, educators, students, and the community to develop a Local Control and Accountability Plan (LCAP) that shows how they will use these funds to serve students.

This chart provides a quick summary of how much Advanced Learning Academy plans to spend for 2025-26. It shows how much of the total is tied to planned actions and services in the LCAP.

The text description of the above chart is as follows: Advanced Learning Academy plans to spend \$7,632,975 for the 2025-26 school year. Of that amount, \$7,632,975 is tied to actions/services in the LCAP and \$0 is not included in the LCAP. The budgeted expenditures that are not included in the LCAP will be used for the following:

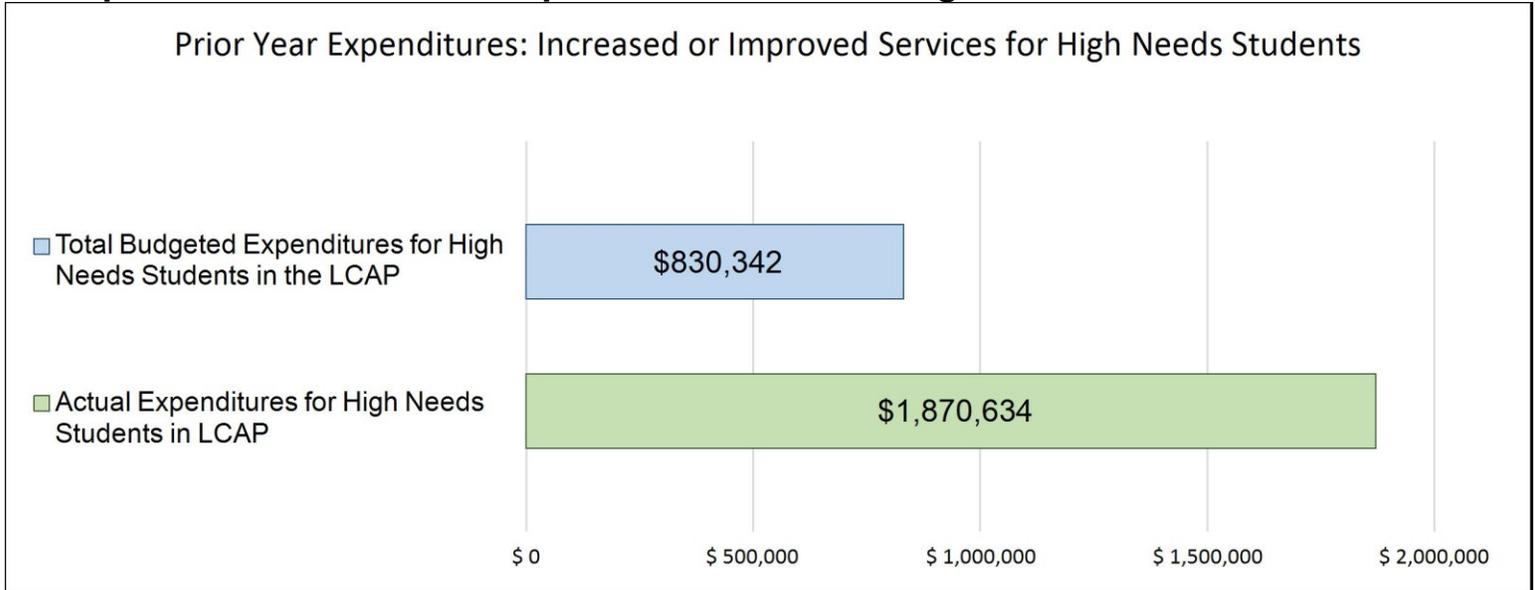

Costs for overhead expenditures not applicable to LCAP reporting

Increased or Improved Services for High Needs Students in the LCAP for the 2025-26 School Year

In 2025-26, Advanced Learning Academy is projecting it will receive \$1,617,913 based on the enrollment of foster youth, English learner, and low-income students. Advanced Learning Academy must describe how it intends to increase or improve services for high needs students in the LCAP. Advanced Learning Academy plans to spend \$2,013,417 towards meeting this requirement, as described in the LCAP.

LCFF Budget Overview for Parents

Update on Increased or Improved Services for High Needs Students in 2024-25

This chart compares what Advanced Learning Academy budgeted last year in the LCAP for actions and services that contribute to increasing or improving services for high needs students with what Advanced Learning Academy estimates it has spent on actions and services that contribute to increasing or improving services for high needs students in the current year.

The text description of the above chart is as follows: In 2024-25, Advanced Learning Academy's LCAP budgeted \$830,342 for planned actions to increase or improve services for high needs students. Advanced Learning Academy actually spent \$1,870,634 for actions to increase or improve services for high needs students in 2024-25.

The difference between the budgeted and actual expenditures of \$1,040,292 had the following impact on Advanced Learning Academy's ability to increase or improve services for high needs students:

Local Control and Accountability Plan

The instructions for completing the Local Control and Accountability Plan (LCAP) follow the template.

Plan Summary [2025-26]

General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA. LEAs may also provide information about their strategic plan, vision, etc.

Advanced Learning Academy is part of SAUSD. Advanced Learning Academy was founded in 2015 as grades 3-5, and has now expanded to include tk - 12. Located in central Orange County, ALA serves a diverse and densely populated urban community. ALA is part of SAUSD which operates 54 schools and programs across the city of Santa Ana. In SAUSD approximately 96% of our students are Hispanic, with 2% being Asian and 2% Other. At ALA approximately 28.5% of SAUSD students are English learners, with Spanish the most common languages spoken at home. Approximately 79.9% of Advanced Learning Academy student population is designated as coming from low-income families. ALA in conjunction with SAUSD offers a multitude of educational programs, including CTE pathways within the California aligned with all 15 CTE industry sectors, a highly competitive speech and debate program, Visual and Performing Arts (VAPA), and expanded learning opportunities with an afterschool program.

The Santa Ana Unified School District Board of Education's Vision and Mission is communicated through the Board Priorities and the Graduate Profile and reflects the district's path to providing a rigorous academic program with career-based learning and workplace experience to ensure all students are college and career ready and prepared to assume the role as part of the global community. We work collaboratively with staff, parents, and the community to strengthen a learning environment focused on raising the achievement of all students and preparing them for success in college and career. We assure well-rounded learning experiences that prepare our students for success. We engage, inspire, and challenge all of our students to become productive citizens, ethical leaders, and positive contributors to our community, country, and global society. We prepare the student for college, career, and beyond, and develop their capacity to be critical problem solvers with the soft skills also necessary to navigate the demands of today's workforce, such as social awareness, collaboration, effective communication, technical literacy, integrity, and community engagement.

Reflections: Annual Performance

A reflection on annual performance based on a review of the California School Dashboard (Dashboard) and local data.

ALA in conjunction with Santa Ana Unified School District (SAUSD) comprehensively reviewed the 2024 California School Dashboard data, local assessments, and input from over 5,500 stakeholders through its 2024–25 Thought Exchange engagement. This reflection supports the district’s commitment to equity, continuous improvement, and strategic use of resources. Our analysis revealed areas of academic and engagement progress, identifying persistent challenges across specific student groups.

Key Takeaways from 2024 Dashboard and Local Data

- English Language Arts (ELA) status is at yellow with a 15.5 point improvement.
- Graduation Rate decreased slightly to 98% from 100%, maintaining a level far above the statewide average.
- Chronic Absenteeism declined 7.9% to 13.2% a huge improvement <- driven by MTSS, COST supports, and enhanced home-to school communication as well as TOSA/outreach support.
- College/Career Indicator (CCI) dropped <- 5% to 53.1% still far exceeding SAUSD at 38.8%. ALA will continue to work on setting up practices such as AVID to support student success.
- Suspension Rate increased by 1.4%, moving to Orange, reflecting the need to continue to strengthen PBIS and trauma-informed practices.
- English Learner Progress (ELPI) declined <- 12.2%, from 41.7% which still exceeds SAUSD at 37.9%, Our LTELs were at 34.7%, which shows a need for support and to continue to provide support through AVID excel and specialized tutoring for our LTELs.

Highlights and Areas of Progress

- ALA’s Chronic Absenteeism improved meaningfully -> Reflecting MTSS and COST implementation, emphasizing tiered interventions.
- The Suspension Rate increased, showing that more work needs to be done with PBIS and affirming the the need of restorative practices and positive school climate.
- Graduation rates remained strong overall.
- In ELA LTELs and Students with Disabilities were in orange while ELs, Hispanic and Socioeconomically disadvantaged were in yellow. All other subgroups had no performance color as the numbers are too small.
- The English Learner Progress Indicator showed a decline both LTELs and ELs were red; necessitating deeper Tier 2/3 ELD intervention and system-wide improvements in reclassification support.
- In Math ALA yellow with ELs, LTELs, Socioeconomically disadvantaged and students with disabilities all in the orange performance level. Hipanic subgroups was in the yellow performance group. All other performance groups have no indicator as the size of the group is too small.
- The CCI dropped from 5% to 53.1%, with no subgroup information as the size of the population was too small.
- Graduation rate dropped to 98% with again no subgroup information as the size of the population was too small.

Local Data-Driven Actions and Stakeholder Engagement

ALA under the SAUSD umbrella deepened its use of DataHub to refine interventions under MTSS. The Framework for the Future guided instructional design, embedding personalized, authentic, and competency-based learning districtwide.

Major initiatives informed by local data include:

- Expansion of early literacy instruction through DIBELS-aligned strategies and TK–3 professional learning. Additionally, ALA has an instructional coach for literacy.
- Broad stakeholder engagement via ThoughtExchange, with over 5,500 voices - some of which were ALA - highlighting themes such as mental health, tutoring, safety, and school connectedness.

Learning Recovery Emergency Block Grant (LREBG) Funds

ALA retains unexpended LREBG funds for the 2025–26 school year. Consistent with EC Section 52064.4, these funds will support targeted extended learning, acceleration, and social emotional mental health needs as follows:

Goal 1 Action 1.8 school counselors

Rationale & Alignment:

ALA specifically benefits from SAUSD with counselor support and uses the share of the grant for ALA for restorative practices and AVID tutor support.

Learning Recovery and Emergency Block Grant

SAUSD has unexpended LREBG funds for the 2025–26 school year.

LREBG-funded actions may be found in Goal 1, Action 1.8

The SAUSD needs assessment substantiated findings from the 2024 Dashboard related to student achievement in English Language Arts, mathematics, College and Career Indicator, and English Learner progress. Additionally, the Dashboard indicated continued high rates of suspension and chronic absenteeism among Unduplicated Student Groups (USGs).

Based on this, Goal 1, 1.8 directly addresses the need for all students to receive high-quality, standards-based instruction and equitable access to a broad course of study. Action 1.8 expands access to MTSS programming and interventions, including college and career support and guidance, individualized 4-year plans, and transcript monitoring with early interventions.

These actions align with allowable uses of LREBG funds in the areas of academic support, college and career counseling, and mental health services.

EC 32526(c)(2): Focused learning supports for students most affected by COVID-19.

EC 32526(d): Addressing academic recovery in Math and ELA for Foster Youth, LTELs, and Students with Disabilities.

This annual reflection informs SAUSD's ongoing commitment to equity and excellence, providing a strategic lens through which we refine our supports, close gaps, and amplify student achievement for all.

Reflections: Technical Assistance

As applicable, a summary of the work underway as part of technical assistance.

N/A

Comprehensive Support and Improvement

An LEA with a school or schools eligible for comprehensive support and improvement must respond to the following prompts.

Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

NA

Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

NA

Monitoring and Evaluating Effectiveness

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

NA

Engaging Educational Partners

A summary of the process used to engage educational partners in the development of the LCAP.

School districts and county offices of education must, at a minimum, consult with teachers, principals, administrators, other school personnel, local bargaining units, parents, and students in the development of the LCAP.

Charter schools must, at a minimum, consult with teachers, principals, administrators, other school personnel, parents, and students in the development of the LCAP.

An LEA receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Educational Partner(s)	Process for Engagement
<p>The 2024–25 LCAP Participation Breakdown for SAUSD(ALA was a part of this): Total Participants: 5,545 Total Thoughts Submitted: 8,404 Group Representation: Students: 40% (1,850) Staff: 38% (1,789) Certificated: 69% (1,163) Classified: 27% (449) Administrators: 5% (82) Parents/Caregivers/Community Members: 22% (1,033) 95% of parent/caregiver participants had children enrolled in SAUSD All SAUSD sites were represented including Equity Multiplier Schools Educational Partners - staff, students, parents/caregivers The LCAP participants were.</p>	<p>Santa Ana Unified School District (SAUSD) implemented a comprehensive, inclusive, and yearlong process to authentically engage educational partners in the development of the 2025–26 Local Control and Accountability Plan (LCAP). In alignment with Education Code 52064(e)(1), SAUSD ensured that all statutorily required groups were consulted, including teachers, principals, administrators, classified and certificated staff, local bargaining units, parents, students, and educational partners from Equity Multiplier schools. The special education local plan area (SELPA) administrator and school site advisory groups were also included.</p> <p>Engagement Summary by Group: Teachers, Principals, Administrators, Other School Personnel: Sitebased LCAP listening sessions were facilitated by administrators, FACE liaisons, and counselors. These sessions occurred during November 2024 through February 2025 and were embedded into staff meetings and planning time to maximize participation. Representatives from local bargaining units (CSEA, SAEA, SAPOA) were invited to participate in designated feedback meetings with District LCAP leadership to review draft goals and provide input. Parents, Guardians, and Community Members: Six LCAP community input sessions were conducted during January 2025 across the district in hybrid formats. Outreach was conducted via ParentSquare, flyers, and social media. Additional engagement occurred through DAC, DELAC, CAC, and AIPAC meetings, where feedback was gathered and responded to.</p>

Educational Partner(s)	Process for Engagement
	<p>Students: Randomly selected students participated in site-based listening sessions. Additional feedback was collected through student advisory groups and surveys.</p> <p>Equity Multiplier Schools (Cesar Chavez HS, Griset Academy, REACH Academy): Targeted engagement with students, families, and staff was conducted at each site to support the development of school-specific focus goals.</p> <p>Special Education Local Plan Area (SELPA): SELPA administrators participated in goal alignment meetings to support the needs of students with disabilities.</p> <p>School Site Advisory Groups: School Site Councils, ELACs, and student leadership groups reviewed draft goals and actions to provide site-specific input.</p> <p>Use of ThoughtExchange for Broad Community Input SAUSD used ThoughtExchange, an interactive, open-ended digital tool, to expand access and transparency. Participants were asked: "What are the most important things SAUSD should do to help every student be successful?" Data were collected beginning in November 2024 through February 2025.</p> <p>ThoughtExchange allowed participants to anonymously rate the thoughts of others, enabling collective prioritization. The District's Research & Evaluation team aligned themes with Board Priority Areas: Student Achievement, Family and Community Engagement, Wellness, and Organizational Efficiency.</p> <p>Confidence in SAUSD's Direction Participants were asked: "Do you believe SAUSD will be successful in achieving its LCAP goals this year?" 61% responded positively (41% probably yes, 20% definitely yes) 28% were unsure 10% responded negatively (7% probably not, 3% definitely not) Confidence was highest among: Administrators (76.8%) Classified staff (59.6%) Certificated staff showed the lowest confidence (38.2%) This indicates the need for improved classroom-level alignment and communication of LCAP strategies.</p>

How the Adopted LCAP Was Influenced by Educational Partner Feedback

The 2025–26 LCAP for Santa Ana Unified School District was meaningfully shaped by robust and sustained engagement with educational partners throughout the school year. The district collected and analyzed input through in-person and virtual meetings, school site councils, advisory committees, student listening sessions, and a districtwide ThoughtExchange platform. This feedback informed the development, revision, prioritization, and funding decisions across all five LCAP goals, including the development of a required Focus Goal for schools receiving Equity Multiplier funds.

Feedback from students, staff, parents, and community members played a direct role in refining the district’s academic strategies under Goal 1, Student Achievement. A strong and consistent theme across all groups was the desire for smaller class sizes to support individualized instruction and reduce combination classrooms. In response, Action 1.4 was preserved and reinforced to maintain TK–3 class size protections. Stakeholders also emphasized the need for tutoring and academic support, particularly outside of regular school hours. As a result, Action 1.8 was expanded to include after-school tutoring, Saturday programs, and a new system of structured Individual Student Education Plans (ISEPs) that allow for more personalized support. Students and families further expressed interest in a broader course of study, including more field trips, exposure to career pathways, and greater access to electives. This input informed revisions to Actions 1.6 and 1.10, which now provide additional opportunities for students to participate in AP, STEM, CTE, Ethnic Studies, World Languages, and enrichment courses. In addition to changes in services, the district updated several performance metrics in response to partner feedback. Benchmarks for reclassification, absenteeism, A–G completion, and early literacy were revised, and disaggregation was added for student groups such as Long-Term English Learners, Foster Youth, and Students with Disabilities to provide a clearer picture of equity gaps.

In the area of Family and Community Engagement, or Goal 2, parent and staff feedback emphasized the importance of clear, responsive, and multilingual communication from schools and the district. As a result, Actions 2.1 through 2.5 were revised to expand the roles of Family and Community Engagement (FACE) liaisons, strengthen leadership development opportunities for caregivers, and ensure that information is accessible in families' home languages. The district also added new survey-based metrics using Panorama constructs such as “Family Efficacy,” “Family Support,” and “School Welcome” to more accurately measure the quality of relationships and outreach efforts.

Under Goal 3, Wellness, students and staff called attention to the need for stronger mental health supports, safer schools, and access to wellness services. Based on this input, the district expanded Actions 3.2 and 3.3 to increase the number of mental health professionals, support schoolwide Tier 2 services, and strengthen coordination of wraparound services. Stakeholders also requested more attention to school safety and inclusivity. This led to enhancements in Actions 3.4 and 3.5, which now include restorative and trauma-informed practices, anti-bullying strategies, and professional development aimed at fostering welcoming, safe school environments. Corresponding metric targets were also adjusted to reflect increased expectations for chronic absenteeism reduction, improved student sense of belonging, and increased safety perceptions among students and families.

In response to partner concerns about campus safety, student supervision, and facility maintenance, SAUSD also made refinements to Goal 4, Organizational Efficiency. Action 4.3 was updated to prioritize clean and well-maintained facilities, with a focus on bathrooms, HVAC systems, and shaded outdoor areas. Additionally, Action 4.4 was strengthened to improve communication channels and ensure staff and families can quickly report concerns and receive timely support.

To analyze and act on feedback, the district leadership team was convened. These teams reviewed stakeholder input alongside local and Dashboard data, then assessed each pertinent initiative. Recommendations from these groups led to the reinforcement of high-impact services such as tutoring and mental health support, revision of others such as class size implementation due to fiscal realities, and reallocation of resources toward stakeholder priorities. In addition, the district conducted a deeper analysis of 1,690 top-rated thoughts from the more than 7,000 submitted through ThoughtExchange. Each thought was coded to one or more LCAP actions to quantify stakeholder priorities across four domains: Student Achievement, Family and Community Engagement, Wellness, and Organizational Efficiency.

To ensure accountability and transparency, SAUSD has committed to communicating the outcomes of this process back to educational partners. Updates on LCAP revisions are shared through presentations at DAC, DELAC, CAC, AIPAC, and site council meetings. The district also publishes accessible information on its website, distributes messages via ParentSquare, and produces translated infographics and summary videos. Community forums and year-end reports further support public understanding of how stakeholder input shaped final decisions.

Goals and Actions

Goal

Goal #	Description	Type of Goal
1	With the support of SAUSD, ALA will deliver a high quality educational program that actualizes our Framework for the Future so that learning is authentic, personalized, competency-based, equitable, and inclusive so that all SAUSD students develop self-efficacy and are empowered to become architects of learning, world ready scholars, global innovators, collaborative leaders, empathetic communicators and community builders.	Broad Goal

State Priorities addressed by this goal.

- Priority 2: State Standards (Conditions of Learning)
- Priority 4: Pupil Achievement (Pupil Outcomes)
- Priority 5: Pupil Engagement (Engagement)
- Priority 7: Course Access (Conditions of Learning)
- Priority 8: Other Pupil Outcomes (Pupil Outcomes)

An explanation of why the LEA has developed this goal.

Goal 1 was developed in direct response to improving academic disparities and is grounded in SAUSD’s Framework for the Future, which reimagines instruction to be authentic, personalized, competency-based, equitable, and inclusive. This goal aims to create systemwide coherence in instructional design and delivery that reflects the aspirations outlined in the Graduate Profile and supports all students—particularly those in Unduplicated Student Groups (USGs)—to become world-ready scholars.

The 2024 California School Dashboard data illustrates both areas of improvement and continued need:

- English Language Arts (ELA): ALA students are 13.8 points below the standard compared to SAUSD that remains 51.6 points below standard overall. Long Term English Learners (75.7 PBS), Students with Disabilities 82 PBS), English Learners (54.2 PBS) and Socioeconomically Disadvantaged students (16.5 PBS) and Hispanic students (13.9 PBS) still show a disparity amongst subgroups but improvement especially amongst socioeconomically disadvantaged.
- Mathematics: While there was slight growth, students are still 91.2 points below standard overall. Performance gaps persist, with Students with Disabilities (122.6 PBS), Long-Term English Learners (162.5 PBS) and English Learners (123.5) among the lowest-performing subgroups.
- Graduation Rate: ALA dropped 2% to 98%. There are no subgroups to compare as the number is too small.
- College/Career Indicator (CCI): ALA dropped by 5% to 52.1% but is still much higher than SAUSD at 38.8% of students were deemed prepared.
- English Learner Progress: Only 41.7% of English Learners are making expected progress toward proficiency, a decline of 12.2 percentage points from the prior year.

This Dashboard data confirms the relevance and urgency of continuing the actions in Goal 1. Additionally, early literacy performance—where

only 57% of students in grades K–3 scored proficient on DIBELS—emphasizes the need to strengthen foundational skills and early learning systems.

SAUSD’s 2024–25 ThoughtExchange engagement also elevated several community priorities addressed in this goal, including smaller class sizes, expanded mental health supports, tutoring and interventions, and broader access to academic and enrichment opportunities. These align with the core components of Goal 1, which include:

- Actions 1.1–1.3: High-quality instruction with integrated technology and data cycles to improve student outcomes.
- Action 1.4–1.5: Smaller class sizes and strong early learning programs to support foundational literacy and readiness.
- Action 1.8: A responsive, data-driven MTSS to deliver effective interventions.
- Actions 1.9–1.13: Targeted supports for ELs, LTELs, Foster Youth, and Students with Disabilities to close persistent equity gaps.
- Actions 1.6–1.7, 1.12: Access to a broad course of study, including AP, Dual Enrollment, STEM, VAPA, and enrichment.
- Action 1.14: Professional learning to build educator capacity aligned to SAUSD’s Learning Model and Graduate Profile.

SAUSD’s USG enrollment exceeds 87%, and Goal 1 represents a systemwide commitment to academic excellence and equity. By fully implementing the Framework for the Future and Goal 1’s strategic actions, SAUSD will create inclusive learning environments where every student is empowered to thrive.

Goal Analysis [2024-25]

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

All actions under Goal 1 were substantially implemented, with expanded MTSS systems, and student centered instruction. Instruction was guided by California State Standards and the district's Framework for the Future, emphasizing authentic, personalized, and competency-based learning. Academic programming included structured literacy and math routines, designated and integrated ELD, and universal design through AVID,

GLAD, Thinking Maps, and UDL strategies. High school sites deepened their focus on postsecondary access and readiness through AP, dual enrollment, and CTE pathways. Early literacy and family engagement were further strengthened through initiatives such as RISE and library-based programming.

MTSS structures were enhanced through COST teams that used data-informed practices to coordinate Tier 2 and 3 interventions. COST meetings became more efficient and equity-driven, supported by coaching and aligned with site SPSAs.

However, staffing limitations due to the district's Fiscal Stabilization Plan restricted the expansion of class size reduction and impacted implementation consistency of designated ELD at secondary levels. Rollout of immersive instructional technology was also delayed due to training and logistics.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

In reviewing the 2024–25 LCAP, several material differences were identified between Budgeted and Estimated Actual Expenditures. These differences reflect shifts in district needs, programmatic priorities, and cost structures. Minor variances have been omitted in accordance with LCAP guidance.

Action 1.1 – High Quality Instructional Program

Expenditures were approximately \$1.4 million higher than budgeted. This variance was due to the need for additional hands-on materials required for implementing the district’s instructional framework and staff that contribute to the core program.

Action 1.5 – Early Learning

While no funding was allocated to this action, this spending reflects expenditures related to early literacy.

Action 1.8 – MTSS: Student Achievement

Expenditures were approximately \$530,000 higher than budgeted. This variance was due to the need for additional counseling staff. This increase supported the continuation of counseling services with a lower student-to-counselor ratio, which was made possible in part by Learning Recovery Emergency Block Grant (LREBG) funding.

Material Differences Between Planned and Estimated Actual Percentages of Improved Services

Material differences in the use of LCFF funds under Goal 1 were the result of strategic leveraging of other funding sources and revised implementation priorities. Details are provided by action:

Action 1.1 – High Quality Instructional Program

LCFF expenditures were \$1,385,373.85. LCFF funding was utilized to provide staffing to support the core program and resources necessary, such as hands-on learning and differentiation for the core instructional program in alignment with the SAUSD.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

Progress was moderate, with key areas of growth and other metrics signaling continued challenges, particularly in math proficiency and outcomes for English Learners and Long-Term English Learners.

Highlights from Updated 2024–25 Metrics:

- CTE Pathway Completion: Increased from 3.2% -> 26.5%
- Both A–G and CTE Completion: Increased from 3.2% -> 12.2%
- AP Pass Rate (Score 3+): Improved from 5.6% -> 34.6%
- EAP Readiness (ELA): decreased from 61.7% -> 52.2%
- CAASPP ELA: slight increase at 44.95% (previously 43.27%)
- CAASPP Math: Up slightly to 16.67% (from 114.43%)
- ELPI for LTELs: Declined by 12.2%, indicating limited progress

Actions Demonstrated to Be Effective

College and Career Readiness Supports (Actions 1.8, 1.9): ALA saw significant growth in CTE completion, dual enrollment, and AP pass rates.

These gains reflect the successful implementation of individualized student planning, postsecondary workshops, and expanded course access.

-Early Literacy and Library Services (Actions 1.2, 1.3): DIBELS results and high utilization of multilingual, inclusive library materials indicate strong foundational literacy support, particularly in early grades.

-MTSS and COST Implementation in Community Schools (Actions 1.4, 1.8): ALA strengthened Tier 2 and Tier 3 interventions through well-facilitated Coordination of Services Teams (COST), leading to improved student engagement and reductions in chronic absenteeism.

-Framework for the Future Support- Leveraging resources and structures to carry out our plan for supporting a deeper understanding of the Grad. Profile Outcomes: Monthly meetings: Administrators, Support Staff, Task Force, Communicating best practices via Bright Spots, Graduate Outcome “shout outs,” Learner Centered Consultant support and media plan, Social media and print media, monthly newsletter.
Actions Partially Effective or in Development

-Designated ELD Instruction at Secondary Level (Action 1.4): While elementary ELD was consistent, secondary implementation varied, contributing to underperformance in LTEL reclassification and ELPI scores.

-Framework for the Future Support- Engaging site-based coaches and other support staff needs further development.

Areas Needing Improvement

-Mathematics Achievement (MAP and CAASPP): Despite modest growth, ALA still is working toward improving MAP math growth targets, and overall

CAASPP math proficiency. Foundational numeracy and math interventions require redesign and targeted support.

-Equity in Class Size and Instructional Staffing: Due to fiscal constraints, class size reduction was scaled back in many grade levels, affecting the quality and consistency of Tier 1 instruction.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

In response to implementation and metric data, and in alignment with authentic stakeholder voice captured through ThoughtExchange and Student Listening Sessions, ALA under the SAUSD umbrella will implement several key refinements to Goal 1 actions for 2025–26:

Changes to Goal 1

- Action 1.10, 1.11 - Designated ELD instruction at the secondary level will be prioritized with targeted coaching, protected scheduling, and improved site accountability. Designated ELD instruction at the secondary level was identified as ineffective due to inconsistent implementation across sites, which contributed to underperformance in English Learner Progress Indicator (ELPI) scores and Long-Term English Learner reclassification. In 2025–26, this action will be strengthened through targeted site coaching, protected scheduling to ensure designated time is met, and new accountability systems that monitor frequency and fidelity of instruction.
- Action 1.8 - Individual Student Education Plans (ISEPs) will be launched earlier in the school year and aligned to new counselor protocols to support on-time graduation.
- Action 1.8 - COST systems will be codified through a districtwide manual, helping standardize Tier 2 and 3 MTSS supports across sites, building on Community School models.

- Action 1.4, 1.5 - Class size reduction efforts will remain focused on TK–3 and DLI, reflecting fiscal realities and feedback from stakeholders advocating for smaller, more supportive classrooms.
- Action 1.8 - Math interventions will continue to be refined using MAP growth data, especially for underperforming subgroups. Math interventions were identified as ineffective due to persistently low MAP growth and CAASPP math proficiency, particularly for Long Term English Learners and Students with Disabilities. In 2025–26, math support will be redesigned to include small-group, standards-aligned instruction, embedded coaching, and adaptive intervention software, tailored by MAP growth data.
- Action 1.14 - Immersive learning tools will be paired with dedicated PD to ensure effective integration into instruction.

Stakeholders emphasized the need for more tutoring, clearer academic feedback, and stronger relationships with teachers and support staff. The district’s updated actions respond directly to these themes by improving the coordination of supports, refining intervention strategies, and expanding professional learning that centers equity and responsiveness.

Action 1.8 has been revised to include LREBG funding. Metrics 1.1, 1.2, 1.3, 1.4, 1.8, and 1.18 include all unduplicated student groups.

A report of the Total Estimated Actual Expenditures for last year’s actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year’s actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing
1.1	High Quality Instructional Program	Advanced Learning Academy will provide all students with a high-quality Tier 1 CA standards-based instructional program, in alignment with our Framework for the Future, that is authentic, personalized, competency-based, equitable, and inclusive with integrated language and literacy instruction and differentiated supports across all core academic subjects, including dual immersion programs, that are offered in person as well as virtually through designated courses. Culturally responsive learner-centered, community/project-based, and inquiry pedagogies will be promoted along with inclusive practices such as Universal Design for Learning, and flexible learning environments and research-based approaches such as AVID, GLAD, and Thinking Maps to close the achievement gap for Unduplicated Student Groups (USGs) including Socio-Economically Disadvantaged (SED), English Learners (EL), Long Term English Learners (LTEL), and Foster Youth (FY).	\$1,396,338.22	Yes

Action #	Title	Description	Total Funds	Contributing
1.2	Improvement Science Cycles	Staff serving students in USGs will engage in site-based professional learning such as professional learning communities (PLC), coaching opportunities, and engagement in data inquiry cycles to build capacity to deliver culturally responsive and learner-centered approaches as outlined by leveraging structures such as early release/late start dates, and grade level release time.		Yes
1.3	Integrated Technology	Staff serving students in USGs will engage in site-based professional learning such as professional learning communities (PLC), coaching opportunities, and engagement in data inquiry cycles to build capacity to deliver culturally responsive and learner-centered approaches as outlined by leveraging structures such as early release/late start dates, and grade level release time.	\$140,640.22	Yes
1.4	Lower Class Size	Classes with the highest percentages of USG enrollment will be reduced and combination classes (multi-grade, multi-language) will be minimized to the degree possible as long as possible to provide students within USGs with the individualized attention and support needed to successfully access, engage and interact with grade-level content, which will result in increased graduation and persistency rates.		Yes
1.5		Advanced Learning Academy will implement a well-articulated, developmentally appropriate, Universal Kinder Continuum. This Continuum will provide our youngest learners, and in particular, our USGs, including EL, SED, and FY, with learning opportunities that address the needs of the whole child that build upon and foster their knowledge, interests, and developing potential through meaningful, personalized learning experiences with literacy, science, music and numeracy instruction that will address the needs of the whole child and will lay the foundation for future academic performance, self-agency, focus, and creativity.	\$172,191.00	

Action #	Title	Description	Total Funds	Contributing
1.6	College and Career Readiness	Advanced Learning Academy will offer a broad course of study that is designed to support all high school students in becoming college and career-ready. School counselors and higher education coordinators will support the enrollment process, development of individual student 4-year educational plans, and conduct transcript auditors to monitor UGS student progress and provide early support where needed with interventions, Summer bridge programs, and credit recovery opportunities so that they are successful in rigorous college readiness courses and pathways including A-G courses, Advanced Placement (AP), early college/dual enrollment, Career Technical Education (CTE) with work-based learning opportunities, World Languages (for the Seal of Biliteracy), and ROTC.	\$393,978.40	Yes
1.7	Broad Course of Study	Advanced Learning Academy will offer a relevant broad course of study with equitable access for all USGs (SED, EL, LTEL, FY) to a variety of courses, programs, and enrichment and expanded learning opportunities including field trips, STEAM, arts education, AVID, CTE, community and work-based learning, ethnic studies, athletics, speech and debate, and service learning that will result in a well-rounded education that prepares students for college and career learning experiences and expectations.	\$169,237.39	Yes
1.8	MTSS - Student Achievement	Advanced Learning Academy will use relevant data to effectively plan, implement, and monitor research-proven tiered intervention and supports for students within USGs with Tier 2 and 3 needs in the areas of language arts and foundational literacy, and mathematics and include them in the school's School Plan for Student Achievement (SPSA) as part of a robust MTSS model.	\$115,304.29	Yes
1.9	Addressing Special Needs	We will provide all students with special needs with inclusive and equitable services and supports as listed in their Individualized Education Programs (IEP) or 504 Plan (in addition to core program services and the services they receive pertinent to USG designations) in the least restrictive environment that is inclusive and equitable that meets their needs to maximize student outcomes and close the achievement gap, including graduation rate and performance on statewide assessments.	\$297,577.31	No

Action #	Title	Description	Total Funds	Contributing
1.10	English Learner Program	<p>In alignment with the SAUSD English Learner Master Plan, Advanced Learning Academy will ensure assets-oriented, culturally appropriate and responsive ELD instruction and supports, as detailed in their SPSA, for English Learners, including newly arrived students. This approach guarantees full access to programs and pathways, continuous academic progress, accelerated language development, and preparedness for high school graduation, college, and career success. English Language Development Instruction includes:</p> <ul style="list-style-type: none"> -ELD instruction within general education content to develop language skills while receiving supported access toward learning subject matter. -Specific ELD instruction during dedicated times to focus on language skills. -Personalized plans for each English Learner to address unique learning needs and goals. -Regular assessment of students' academic progress to track development and readiness for reclassification as fluent English proficient. -Additional support tailored to the needs of newly arrived and migrant students to aid their integration and academic success 		Yes
1.11	Supports for LTELs	<p>In alignment with the SAUSD Master Plan in order to ensure the academic success and language proficiency of Long-Term English Learners (LTELs), SAUSD will implement the following strategies:</p> <ul style="list-style-type: none"> -Provide ongoing professional development for teachers focused on strategies to support LTELs, including differentiated instruction, scaffolding, and culturally responsive teaching. -Develop and implement an advanced ELD curriculum that addresses the specific needs of LTELs, focusing on academic language, literacy skills, and content-area knowledge. -Utilize data to identify LTELs' specific language and academic needs and tailor instruction accordingly. -Offer targeted intervention programs and tutoring specifically designed for LTELs to address gaps in language proficiency and academic skills. 		Yes

Action #	Title	Description	Total Funds	Contributing
		<ul style="list-style-type: none"> -Increase engagement with families of LTELs through workshops, resources, and communication in their home languages to support learning at home and build strong school-family partnerships. -Develop clear pathways for LTELs to achieve reclassification by setting measurable goals and ensuring access to resources and opportunities that promote language development and academic achievement 		
1.12	Library Services	Advanced Learning Academy has a library and uses the book mobile in order to increase library hours, increase library collections to include books and resources that are more inclusive, culturally relevant, and multilingual, and provide family literacy opportunities for students from USGs and their families.		Yes
1.13	Differentiated Assistance - Student Achievement	SAUSD will provide teachers (including those at ALA) with professional learning around the newly developed Framework for the Future along with an updated Graduate Profile with related learning progressions according to grade level spans. A clear focus on connecting students to authentic and personalized learning that is targeted around the specific needs of SWD and FY in order to support improved student achievement and increased graduation rates for both student groups.		No
1.14	Professional Learning - Student Achievement	<p>SAUSD will implement comprehensive professional learning to ensure that educators are equipped with the necessary knowledge and skills to design California standards based learning experiences that are:</p> <ul style="list-style-type: none"> -Authentic -Competency-based -Equitable -Inclusive -Integrated with language and literacy -Culturally responsive -Learner-centered -Social Emotional Learning <p>This professional learning will be ongoing and tailored to meet the evolving needs of staff and students within SAUSD, in particular, the needs of Unduplicated Student Groups (USGs), including Socio-Economically Disadvantaged (SED), English Learners (EL), Long Term English Learners (LTEL), and Foster Youth (FY).</p>	\$11,700.00	Yes

Goals and Actions

Goal

Goal #	Description	Type of Goal
2	Advanced Learning Academy, in alignment with SAUSD, will leverage full, equal, and equitable partnerships among families, educators, and community partners within the SAUSD, to foster children's learning and development from birth through college and career readiness. FACE, viewed as a practice, not a program, will promote an emphasis on building trusting relationships and shared leadership in order to empower every member of our community to actively contribute to the educational journey, and ensure inclusivity and opportunities for all students to thrive. will leverage full, equal, and equitable partnerships among families, educators, and community partners within the SAUSD, to foster children's learning and development through college and career readiness. FACE, viewed as a practice, not a program, will promote an emphasis on building trusting relationships and shared leadership in order to empower every member of our community to actively contribute to the educational journey, and ensure inclusivity and opportunities for all students to thrive.	Broad Goal

State Priorities addressed by this goal.

Priority 3: Parental Involvement (Engagement)

An explanation of why the LEA has developed this goal.

Goal 2 was developed to advance SAUSD’s vision of transformational Family and Community Engagement (FACE)—not as a program, but as a systemwide practice grounded in trust, collaboration, and shared responsibility. The goal reflects the district’s belief that strong partnerships among families, educators, and community organizations are foundational to ensuring all students, especially those in Unduplicated Student Groups (USGs), can thrive from early childhood through college and career readiness.

In 2024–25, SAUSD refined its FACE metrics to better capture meaningful parent-school relationships, replacing older engagement indicators with more intentional, values-driven measures. The latest Panorama Survey data show:

- 69% of elementary parents, 68% of intermediate parents, and 72% of high school parents responded favorably to overall family support
- 75% of elementary parents, 68% of intermediate parents, and 72% of high school parents responded favorably to family efficacy

These results demonstrate that while many families feel welcomed and valued, there is a continued need to broaden inclusive practices, deepen two-way communication, and build shared leadership opportunities, particularly for historically underserved communities. The 2024–25 ThoughtExchange engagement reaffirmed these priorities. Families and staff emphasized:

- The need for flexible engagement options
- Improved access to community resources
- Continued presence of FACE Liaisons and Community School Coordinators
- Stronger collaboration between home and school for student success

At the systems level, the 2024 CA School Dashboard shows that while SAUSD meets standards for FACE, its current status is Initial Implementation or Beginning Development in key areas such as capacity-building, co-designed engagement, and representation of underrepresented families in decision-making.

Goal 2 responds to these findings with targeted actions:

-Action 2.1: Expands parent advocacy and leadership pathways for USG families

-Actions 2.2–2.4: Foster welcoming environments and culturally responsive engagement practices

-Action 2.5: Strengthens the FACE infrastructure and expands access to school-community partnerships

-Action 2.6: Builds staff capacity through professional learning to foster relational trust and co-leadership with families

Goal 2 applies to all schools across SAUSD. It supports a whole-child, whole-family approach rooted in the belief that educational success is most powerful when schools and families lead together.

Measuring and Reporting Results

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
2.1	% parents responded favorably to family engagement	NA	2024-2025 ALA Elementary 93% ALA Intermediate 100% ALA High 87%		Baseline +9%	NA
2.2	% parents responded favorably to family efficacy	2023-2024 71%	2024-2025 ALA Elementary 75% ALA Intermediate 68% ALA High 73%		Baseline +9%	NA
2.3	% parents responded favorably to family support	2023-2024 64%	2024-2025 ALA Elementary 69% ALA Intermediate 68% ALA High 72%		Baseline +9%	NA

Goal Analysis [2024-25]

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

Goal 2 was substantially, with deepening practices of family engagement, community partnership, and leadership development. ALA as part of SAUSD continued to grow its network of FACE Liaisons, Coordinators, and Wellness Center staff who led

workshops, engagement events, and needs-based wraparound services in collaboration with community organizations.

Key highlights from implementation included:

-Establishment of the Family Leadership and Community Advisory (FLACA) and continued operation of advisory committees such as DELAC, DAC, CAC, Migrant PAC, and AIPAC.

-Over 2,700 workshops were delivered, reaching more than 182,000 attendees across topics like parenting, mental health, college/career readiness, digital literacy, and family leadership. Both ALA campuses had regular workshops with parents based on surveys that were given to determine needs.

-Project RISE expanded home-to-school connection work into early grades, with family co-teaching lessons grounded in cultural knowledge.

Despite these successes, the implementation was partially completed in some areas. Challenges included variable attendance at family workshops, limited staff capacity to sustain some programs, and inconsistent onboarding for new council participants. These were especially noted in CAC and AIPAC spaces.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

As of the current review of the 2024–25 LCAP, material differences were identified between Budgeted and Estimated Actual Expenditures for Goal 2. No significant differences were identified in Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

The district made clear progress in family engagement, as evidenced by strong survey outcomes and programmatic growth.

2024–25 Updated Metric Highlights for SAUSD:

-Family Efficacy (Panorama): Increased from 68% to 70%

-Family Support: Increased from 65% to 66%

-% Parents Who Agreed “School Seeks Input Before Making Important Decisions”: 89%

-Family Engagement Survey Participation: Increased from 7,178 to 9,626 respondents

Qualitative impact:

-FACE trainings equipped 12 staff with certification and embedded the Cultural Wealth Model in outreach practices.
-Dropout rates were addressed through proactive, co-constructed supports. Though disparities persist (e.g., ELs at 14.8%, SWDs at 12.8%), trust and communication gains are supporting early intervention

Effective Actions:

2.2 – Resource Access for Families: Over 21,000 contacts were made for academic and basic needs support; wraparound services like food and clothing distribution reached thousands of students and families.

2.3 – Family and Community Events: Events like the College & Career Fair, Noche de Altares, Boca de Oro, and 10 Essentials of Education increased participation across demographic groups.

2.4 – Family Leadership & Volunteerism: Learning Walks, advisory council engagement, and the Our Stories Unite Us initiative deepened authentic relationships and lifted community stories.

2.5 – Capacity Building: The We Care Series, Digital Literacy Week, and Santa Ana Early Learning Initiative (SAELI) built parents' ability to support student learning and advocate for equitable outcomes.

Programs were especially effective in building parent confidence and creating visibility into school systems.

Partially Effective Actions:

Family Efficacy still places SAUSD around the 40th percentile among CORE districts—indicating the need for more targeted support in leadership development and culturally responsive outreach. Two actions were identified as only partially effective.

2.1 – While this action provided the structure through District Advocacy Councils: Advisory groups and FLACA for family voice and crossprogram collaboration, this action was limited by inconsistent onboarding practices, particularly within CAC and AIPAC. In 2025–26, this action will be improved through a districtwide onboarding protocol and consistent facilitation tools.

2.6 – This action, which provides professional learning for FACE staff, varied in site-level implementation. While staff completed training, Panorama data and feedback indicated a need for stronger relational trust and follow-through. To address this, the district will add site-based coaching, integrate the Cultural Wealth Model, and use revised family partnership monitoring strategies in the coming year.

These changes aim to strengthen leadership development, increase equitable participation, and ensure that family engagement efforts are consistently effective across all schools. Please re-evaluate this section based on the instructions previously shared.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

No actions under Goal 2 were identified as ineffective over a three-year period; all remain aligned to the district's strategic goals and stakeholder priorities. However, based on implementation feedback and local data, two actions—2.1 and 2.6—were identified as partially effective and will be strengthened in 2025–26. These adjustments aim to improve consistency, increase shared leadership, and deepen culturally responsive practices across all schools.

Reflections from program implementation, metric data, and stakeholder voice—including the ThoughtExchange, Student Listening Sessions, and action owner feedback—led to the following adjustments for 2025–26:

Changes to Goal 2

- Action 2.1 - Develop a districtwide onboarding protocol for new advisory committee members, including FLACA, CAC, and AIPAC, to improve consistency and leadership capacity.
- Action 2.5 - Increase hybrid workshop access using recorded content, multilingual subtitles, and mobile-friendly platforms to reach more families.
- Action 2.5 - Expand Project RISE and embed co-teaching opportunities into early grade curricula districtwide.
- Action 2.4 - Refine council facilitation supports, including training materials, scheduling tools, and community engagement frameworks.
- Metric 2.1 - Use Panorama family partnership indicators (e.g., “My family’s culture is reflected in the classroom”) in place of generic safety metrics to better capture true engagement progress.
- Action 2.2, 2.3, 2.5 - Create a centralized family engagement tracking system to disaggregate attendance and satisfaction data by USG group (EL, SED, FY, M-V, SWD) for continuous improvement.

Stakeholders and families consistently expressed appreciation for inclusive practices, bilingual supports, and increased access to services.

However, they also shared a need for more visible follow-through on family input, improved parent representation in decision-making, and broader council participation across schools. Although there have been improvements to be made, we are able to address within the current actions. All actions continue to be effective.

A report of the Total Estimated Actual Expenditures for last year’s actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year’s actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing
2.1	District Parent/Caregiver, Family and Community Advocacy Groups	Parents and caregivers of students representing SAUSD's diverse student groups including USGs, SWDs, Native Americans, McKinney Vento, and Migrant Education and key programs will be represented at District-level advisory councils and committees. These advisories and committees will provide input that will result in programs and services that align with the needs of our community, in particular, our USGs; committee board members/parent leaders will have access to training on committee protocols, procedures, and purpose.		Yes

Action #	Title	Description	Total Funds	Contributing
2.2	Resource Access for Families	The District and school site staff will foster community partnerships with community-based organizations and agencies as well as local colleges and universities to provide access to resources with translation/interpretation services, that promote the 5 protective factors to build the capacity of families to support their own needs and improve student outcomes including improved holistic child development, attendance, academic achievement, and social-emotional well-being of their children.	\$2,300.00	Yes
2.3	Family and Community Events	The district and school staff, including the FACE team, will provide online and in-person engagement opportunities for parents/caregivers and the community including community events, workshops, conferences, Open House, Back to School Night, health and resource fairs, college and career fairs, and student ambassador programs to promote academic and social-emotional wellness outcomes for all students while focusing on USG (SED, EL, LTEL, FY) and community needs.	\$41,986.00	Yes
2.4	Family Engagement, Leadership & Volunteerism	Advanced Learning Academy will establish and enhance sustainable parent-school partnerships, supported by SAUSD's FACE team. This will be achieved through outreach, volunteer opportunities, recognition for engaged parents and caregivers, involvement in decision-making, and parent/family leadership development programs/opportunities that highlight and leverage family strengths, aligned with our community school strategy aimed at elevating and amplifying family voices for the benefit of students.		Yes
2.5	Capacity Building for Families	Both site and district staff will collaborate with parents and caregivers to empower them as partners in their children's education. This will include co-parent/family leadership development, parenting classes, workshops, and joint learning opportunities for parents and children. Strengthened communication between the District, the school, and the families will ensure that parents receive clear information about education programs and are empowered to share their perspectives and have meaningful input into decision-making processes.		Yes

Action #	Title	Description	Total Funds	Contributing
2.6	Professional Learning - FACE	SAUSD District and site staff including the FACE team will receive training on family outreach best practices and co-construct training opportunities for and with families which will lead to increased capacity for family engagement across the district.	\$0.00	Yes

Goals and Actions

Goal

Goal #	Description	Type of Goal
3	Advanced Learning Academy and the SAUSD community (staff and community partners) will provide students with resources and multi-tiered support to meet their individual social-emotional, mental health, behavioral and physical well-being.	Broad Goal

State Priorities addressed by this goal.

- Priority 5: Pupil Engagement (Engagement)
- Priority 6: School Climate (Engagement)
- Priority 8: Other Pupil Outcomes (Pupil Outcomes)

An explanation of why the LEA has developed this goal.

Goal 3 was developed to address the critical link between student wellness and academic success. SAUSD recognizes that in order for students—particularly those in Unduplicated Student Groups (USGs)—to thrive, their physical, emotional, and behavioral well-being must be actively supported through a coordinated, multi-tiered system of care.

The 2024–25 LCAP Metrics show promising trends in overall attendance and dropout prevention efforts, but also highlights persistent areas of concern:

- Attendance rates remain high across all student groups, with an overall rate of 94.4%, including:
 - ELs: 93.9%
 - Socioeconomically Disadvantaged (SED): 94.6%
- Despite these rates, chronic absenteeism remains an issue with a rate of 14.7%, and elevated rates for:
 - ELs: 16.7%
 - MV: 16.4%

The middle school dropout rate is 0% across all reported groups, including ELs, SED, Foster Youth, SWD, and McKinney-Vento students. The high school dropout rate is also at 0%, including all subgroups.

Still, disproportionality in absenteeism and behavioral incidents—particularly among Foster Youth, Students with Disabilities (SWD), and McKinney-Vento (MV) youth—remains a challenge. These data align with broader district concerns around student engagement, connection, and the need for safe, inclusive school environments.

Additionally, Panorama survey results show steady perceptions of school climate among staff, but continued work is needed to build alignment and support across all sites

Strategic Response: Goal 3 Actions

-Multi-Tiered Support Systems (MTSS)

--Actions 3.2, 3.3, 3.4, and 3.7 provide comprehensive, tiered interventions that include social-emotional learning, mental health services, and wraparound supports. These actions utilize PBIS frameworks and data-informed case management to reduce absenteeism, support student behavior, and build resilience.

-Foster Youth Supports

--Action 3.9 provides targeted, individualized support for Foster Youth, who remain among the most vulnerable populations. This action is directly aligned to SAUSD’s eligibility for Differentiated Assistance under state accountability guidelines.

-Safe and Supportive Learning Environments

--Actions 3.1, 3.5, 3.6, and 3.8 support school safety and climate by expanding access to Community Schools, restorative practices, and Expanded Learning programs. These initiatives foster belonging and extend learning beyond the school day while reinforcing positive behaviors and social-emotional growth.

-Systemwide Professional Learning

--Action 3.10 ensures that the adults in the system are equipped with the training and tools necessary to support the implementation of all wellness-focused actions, from trauma-informed instruction to MTSS best practices.

Conclusion

Goal 3 affirms the district’s commitment to a whole-child approach, grounded in the belief that academic success cannot be achieved without systems that ensure student safety, belonging, and well-being. This goal directly advances the Framework for the Future and Graduate Profile, ensuring that every child is equipped to succeed—inside and outside the classroom. This goal, which applies to all SAUSD schools, was identified for focused attention through feedback gathered from students, families, and staff during ThoughtExchange, Student Listening Sessions, and school site advisory groups, where participants emphasized the importance of safe, inclusive environments and access to wellness supports.

Goal Analysis [2024-25]

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

Goal 3 actions were substantially implemented, with a strong emphasis on expanding access to integrated wellness services, traumainformed practices, and MTSS-aligned systems for behavioral and social-emotional support. Implementation spanned all schools and was especially robust in Community Schools, where wellness was prioritized through shared leadership, site-based coordination, and wraparound services.

Key initiatives included:

- COST (Coordination of Services Teams) at every site to monitor student needs and assign Tier 2 and Tier 3 interventions
 - Expanded use of PBIS systems supported by site counselors and restorative approaches
 - School counselors provided SEL lessons, risk/safety assessments, and support for IEP students and students in crisis
 - Expanded Learning Opportunities (ELOP) offered after-school and summer programs supporting academics, enrichment, and well-being
 - Strong collaboration among counselors, FACE Liaisons, Community School Coordinators, and mental health professionals addressed a wide range of issues, from attendance and housing to mental health and academic motivation
- Additionally, school-based teams—including counselors, FACE Liaisons, and Community School Coordinators—collaborated to address mental health, housing insecurity, attendance, and student engagement. Restorative training expanded.

Challenges:

- Inconsistent adoption of wellness data systems across sites limited real-time coordination.
- Limited staffing capacity affected training availability and slowed some action implementation.
- Elevated need for Tier 3 services among Foster Youth, McKinney-Vento (M-V), and Students with Disabilities (SWD) required intensive support and cross-department collaboration.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

As of the current review of the 2024–25 LCAP, material differences were identified between Budgeted and Estimated Actual Expenditures for Goal 3. No significant differences were identified in Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

Overall, ALA made strong progress, with multiple indicators pointing to improved school climate, wellness supports, and student engagement.

Updated Metric Highlights:

-Chronic Absenteeism (Dashboard):

--All Students: 20.6% -> 14.7%

--ELs: 21.4% -> 16.7%

--High School Dropout Rate: 0%

-Panorama Student Belonging:

--Elementary: 74% favorable

-Middle School: 59%

--Secondary: 61% favorable

Effective Actions:

-3.2 MTSS – Wellness and 3.3 Integrated Network of Support: COST protocols led to proactive Tier 2/3 interventions. Improved team collaboration enhanced referral tracking, particularly for SED, EL, and FY students.

-3.7 Wraparound Services: Working to Reduce suspensions and expulsions through restorative alternatives and trauma-informed practices. Professional development was provided across staff roles.

-3.1 Social-Emotional Learning (SEL): Monthly classroom lessons were delivered by school counselors at TK–8 sites; however, high school implementation was limited due to a lack of required SEL curriculum and PD.

-3.6 Expanded Learning: Served over 100 students in enrichment and in high-impact tutoring. Priority access for USGs addressed both wellness and academic recovery.

-3.5 Equitable and Inclusive School Culture: Counselors received training in restorative practices, crisis response, identity affirmation, and inclusion, contributing to reduced behavior incidents and stronger relationships.

Actions Requiring Further Development:

-3.4 PBIS Implementation: While all schools implemented PBIS, student feedback via Panorama indicated that systems were primarily adult-led.

Actions 3.4 and 3.11 have shown areas for growth and will be evaluated in 2025–26 to determine whether adjustments are needed to enhance student voice in PBIS and expand consistent adult supervision practices across all schools.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

Based on implementation data, outcome metrics, and educational partner input—including ThoughtExchange, Student Listening Sessions, and action owner feedback—ALA under the SAUSD umbrella will implement the following improvements to deepen the impact of its wellness systems and ensure culturally responsive support across all sites:

Changes to Goal 3

- Action 3.1 - Focused on SEL implementation, has shown areas for growth in consistency and reach over the past three years and will be strengthened through a districtwide curriculum map and additional support at the secondary level. Adopt a districtwide SEL curriculum map to support consistent implementation across TK–12 and align with SAUSD’s SEL Framework and core wellness competencies. Increase access to SEL programming at the high school level, including curriculum adoption and release time for implementation led by teachers and counselors.
- Action 3.5, 3.7 - Expand restorative practices training, including tailored sessions for safety staff, counselors, and classroom teachers, to ensure consistent Tier 1 behavioral support.
- Action 3.2 - Launch a centralized referral dashboard to improve Tier 2/3 coordination across COST teams and ensure students do not fall through the cracks after an initial concern is raised.
- Action 3.7 - Enhance post-crisis reentry systems, especially for Foster Youth, McKinney-Vento students, and SWDs, ensuring timely wraparound care and coordinated support.

In addition, SAUSD will now track new parent-facing metrics to better align wellness efforts with family engagement and cultural responsiveness.

New metrics (3.13 - 3.15) added in 2024–25 include:

-87% of parents responded favorably to: “I feel like I have a strong connection with my child’s teacher.”

-86% of parents responded favorably to: “My child uses information I give them about my family’s culture and our daily routines in their classroom activities and lessons.”

-89% of parents responded favorably to: “My family’s culture, values, and experiences are represented in my child’s classroom.”

These new indicators will be used to evaluate wellness work more holistically, ensuring students feel seen and valued, and families feel connected to the school environment. Stakeholder input underscored the importance of visible follow-up, student-centered wellness spaces, and more direct communication between families and wellness teams.

A report of the Total Estimated Actual Expenditures for last year’s actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year’s actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing
3.1	Social Emotional Learning (SEL)	SEL proficiency development as outlined in SAUSD’s SEL Framework, will be developed through strategies including research-based SEL lessons provided by classroom teachers and school counselors along with SEL signature practices implementation in classroom and school-wide settings.		No
3.2	MTSS - Wellness	Advanced Learning Academy will implement a robust MTSS model with a Coordination of Services Team (COST) that will review monthly data reports to identify student academic, behavioral, health, and social-emotional/mental health needs (tier 2 and 3) and available interventions/resources with priority consideration for Unduplicated Student Groups (USGs) including Socio-Economically Disadvantaged (SED), English Learners (EL), Long Term English Learners (LTEL), and Foster Youth (FY), assign students to appropriate targeted interventions and supports, and monitor the impact on student outcomes.		Yes
3.3	Integrated Network of Support	The coordination of roles, in alignment with CA’s Community School model, among School Counselors, Social Workers/Mental Health Clinicians, Health Providers, Community Schools Coordinators, and FACE Liaisons who are assigned to the school site will allow for streamlined, equitable, and effective Tier 2 and Tier 3 supports for social-emotional, mental health, behavioral, and physical well-being that is tailored to their USGs (EL, LTEL, SED, FY).	\$1,500.00	Yes
3.4	PBIS	Advanced Learning Academy will implement a site-designed Positive Behavior Interventions and Supports (PBIS) model that will promote a culture of belonging, safety, and care for all students while addressing the needs of each school site’s USG (SED, EL, LTEL, and FY).		Yes

Action #	Title	Description	Total Funds	Contributing
3.5	Equitable and Inclusive School Culture	Advanced Learning Academy, with support from the Support Services Team, will provide an equitable and inclusive school culture that is built upon trusting relationships and offers a continuum of supports including restorative practices (Levels 1 and Level 2) trauma-informed practices, anti-bullying strategies, and social-emotional assistance for staff, students, and families to support all students with emphasis for USG (EL, LTEL, SED, FY) and LGBTQ students.		Yes
3.6	Expanded Learning Opportunities	Students in USGs (SED, EL, LTEL, FY) will be offered expanded learning opportunities after school and during the summer with additional opportunities before school and on Saturdays, to ensure that students have a safe place outside of school hours with access to a nutritious snack, enrichment experiences, athletic opportunities, and academic supports.	\$519,838.69	Yes
3.7	Wrap Around Services	Advanced Learning Academy will provide targeted resources and programs such as transportation, basic necessities, and other resources for USG SED (including McKinney Vento and Migrant Education eligible students), EL/LTEL, and FY to remove barriers to access and increase persistence leading to higher degrees of academic success. Wrap-around services will focus on home visits, outreach, and restorative solution-oriented practices will be prioritized over punitive actions to support student attendance and behavior.		Yes
3.9	Differentiated Assistance - Wellness	Advanced Learning Academy will review monthly progress monitoring updates for their Foster Youth student groups in the areas of suspensions, office referrals, incidents of bullying/harassment and implementation of restorative practices in order to provide early tiered interventions.		Yes

Action #	Title	Description	Total Funds	Contributing
3.10	Professional Learning- Wellness	SAUSD's professional learning will ensure that educators are equipped with the necessary knowledge and skills to promote school environments that support: -PBIS and Progressive Discipline Practices -Diversity, Cultural Proficiency, and Inclusive Interactions (including LGBTQ protections) -Social Emotional Learning and Restorative/Trauma Informed Practices -Student Health and Wellness and Safety Assessments		Yes
3.11	Adult Supervision		\$163,214.47	

Goals and Actions

Goal

Goal #	Description	Type of Goal
4	The SAUSD will create systems which improve efficiency, effective internal communication protocols, and implement solutions with a high level of customer service and professionalism, in order to support the educational programs of the district, including those at Advanced Learning Academy.	Broad Goal

State Priorities addressed by this goal.

Priority 1: Basic (Conditions of Learning)

An explanation of why the LEA has developed this goal.

Goal 4 was developed to ensure that the foundational conditions necessary for student learning—outlined in State Priority 1 (Basic Services)—are consistently met and sustained across all SAUSD schools. This goal addresses core operational and infrastructural elements that underpin every educational experience, including:

- Access to appropriately assigned and credentialed teachers
- Availability of standards-aligned instructional materials
- Maintenance of safe, clean, and functional school facilities
- Provision of high-quality professional development
- Development of clear and effective internal and external communication systems

These components are essential to creating the conditions in which academic and social-emotional learning can thrive. Without them, students—particularly those from historically underserved groups—are more likely to face barriers to engagement, achievement, and equitable opportunity.

According to the 2024 CA School Dashboard and local data:

- SAUSD met the Standard for Priority 1, including 100% access to instructional materials and zero facilities reported as not meeting the “Good Repair” standard.
- 88.6% of teachers are fully credentialed, exceeding both the county and state averages, demonstrating strong teacher assignment and recruitment practices?.
- However, challenges persist in ensuring consistent quality of instructional implementation and in expanding access to aligned professional learning opportunities, especially for new teachers, support staff, and those implementing new programs and frameworks.
- Feedback from the 2024–25 ThoughtExchange engagement and district leadership teams also highlighted the need for improved crossdepartmental efficiency, clearer communication with families and staff, and streamlined systems to support school operations and LCAPaligned initiatives?. This goal is important because it is designed to address the basic conditions of learning that are included in Priority 1.

Goal 4 is therefore intentionally designed to build the operational backbone of the district, ensuring that teaching and learning are supported by efficient, professional, and sustainable systems. These systems must not only meet compliance requirements but also elevate the quality and consistency of services delivered to students, staff, and families.

Strategically, this goal includes:

- Actions that improve site and district operations, fiscal transparency, and digital infrastructure
- Professional development aligned to district priorities and job-specific competencies
- Facilities planning and monitoring to support safe, inviting, and equitable learning environments
- Internal and external communications systems to enhance engagement and trust with educational partners

Conclusion

Goal 4 reflects SAUSD's commitment to systems thinking, operational excellence, and responsive service delivery. By strengthening the infrastructure that supports all other goals, this objective ensures that the district's vision for equity, innovation, and student success is built on a foundation that is stable, coherent, and future-ready. This goal applies to all SAUSD schools and was identified for focused attention through feedback from educational partners, including ThoughtExchange, site administrators, and district leadership teams. Their input emphasized the importance of strong operational systems, accessible professional learning, and improved internal and external communication.

Measuring and Reporting Results

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline

Goal Analysis [2024-25]

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

Implementation of Goal 4 was substantially completed, with strong progress in ensuring compliance with state mandates, upgrading learning environments, and advancing districtwide professional learning systems.

Key initiatives included:

- 100% compliance with instructional materials requirements across all schools, per Williams Act reviews.
- All facilities rated in “good” or “exemplary” repair on the Facility Inspection Tool (FIT).
- Progress toward zero misassignments for teachers of English Learners and full credential compliance for core subject teaching assignments.
- Launch of the Professional Learning Dashboard, which centralized access to 100+ sessions ranging from UDL and ELD to math routines and cognitive coaching.
- Strengthened internal communication and training protocols for office managers, FACE liaisons, and site-based instructional teams?

Challenges included:

- Uneven implementation of training initiatives at small and understaffed sites.
- Delayed onboarding in select professional learning tracks (e.g., Ethnic Studies, Inclusive Practices).
- Professional development access for classified and site leadership staff varied across departments.

Additionally, Action 4.5—focused on comprehensive professional learning—was partially implemented due to delayed onboarding in Inclusive Practices and Ethnic Studies; in response, asynchronous training options and improved tracking systems will be introduced in 2025–26 to ensure broader access and consistent staff participation.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

As of the current review of the 2024–25 LCAP, material differences were identified between Budgeted and Estimated Actual Expenditures for Goal 4. No significant differences were identified in Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

Goal 4 actions were effective in supporting a safe, well-equipped, and professionally supported learning environment.

Updated Metric Highlights:

- 100% compliance on the sufficiency of standards-aligned materials (textbooks and instructional resources).
- 100% of schools rated in “good” or “exemplary” condition on the FIT.
- No credential misassignments or vacancies in core instructional positions per 2024 SARC

Effective Actions:

- 4.1 Highly Qualified Teachers: Credential compliance was fully met, with zero teacher misassignments across all instructional areas.
- 4.2 Standards-Aligned Materials: All classrooms received updated, standards-aligned resources, as confirmed by Williams monitoring.
- 4.3 Future-Ready Learning Environments: Continued implementation of clean, modernized, and accessible spaces to support equity and student-centered learning.
- 4.5 Comprehensive Professional Learning: Over 30 district-led PD topics were offered, including Reading Academies, SEL implementation, Math Language Routines, and culturally responsive pedagogy.

Professional learning was especially impactful in scaling knowledge across roles—from classroom educators to counselors to site administrators. However, site-level variations in implementation underscore the importance of sustained coaching and cross-role planning time. Given these site-level differences, Action 4.5 will be evaluated in 2025–26 to determine whether revisions are needed to increase coherence, access, and sustained implementation across all school roles.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

To strengthen Goal 4 efforts, SAUSD will implement the following changes in 2025–26:

- Action 4.5 - Launch a revised internal training portal with better integration of attendance, tracking, and certification data across PD series.
- Action 4.1 - Codify onboarding practices for new teachers, counselors, and classified staff with orientation modules tied to SAUSD’s Graduate Profile and operational expectations.
- Action 4.5 - Expand access to asynchronous professional learning, especially for small and alternative schools that struggle with sub coverage.
- Action 4.3 - Align training with real-time metrics on campus safety, technology integration, and facilities usage to prioritize high-need areas.
- Action 4.5 - which focuses on professional learning systems, will be reviewed in 2025–26 to determine whether modifications are needed to address site-level variation in access and implementation observed over the past three years.

These changes aim to deepen implementation consistency and address site-level disparities in training access. Stakeholders emphasized the need for streamlined systems, responsive support protocols, and continued investment in quality learning environments as foundational to student success.

A report of the Total Estimated Actual Expenditures for last year’s actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year’s actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing
4.1	Highly Qualified Teacher	All students will have equitable access to appropriately assigned, experienced, and effective teachers. Teachers are the biggest factor in student success. Hiring and retaining teachers who are highly qualified and effective instructional leaders is of primary importance to ensure students are learning content standards.	\$3,839,205.31	No
4.2	CA Standards Aligned Materials	All students will have access to and use appropriate grade-level, standards-aligned instructional materials for all content areas. English learners, students with disabilities, and students receiving intervention services have appropriate and accessible materials to support their learning. SAUSD ensures that all students have access to quality instructional materials to support a high quality core curriculum and a broad course of study.		No
4.3	Future Ready Learning and Work Environments	The Maintenance & Operations, Planning & Design, and Construction Departments aim to consistently assess, upkeep, maintain, and/or improve the school's buildings and outdoor spaces to ensure clean, healthy, safe, and secure facilities. By doing so, we provide high-quality, cutting-edge learning and work environments that are maintained in good repair and meet or exceed state standards for cleanliness and adequacy.	\$367,963.25	No
4.4	Educational Partner Education	Advanced Learning Academy in alignment with SAUSD will promote a culture of respect and equity, by enhancing communication through various channels such as parent meetings, newsletters, websites, and social media, ensuring language accessibility for English learners and their families, and monitoring and supporting high levels of customer service practices.		No

Action #	Title	Description	Total Funds	Contributing
4.5	Comprehensive Professional Learning	Advanced Learning Academy in alignment with SAUSD will implement comprehensive professional learning for all staff that is aligned with district LCAP goals and Board Priorities, is tailored to unduplicated student needs and is supported by a system to gather data regarding PD activities to track offerings and the level of staff engagement.		No

The structured framework of tiered interventions will provide varying levels of support based on student needs. A strong PBIS model will allow each school site to address specific challenges by offering targeted interventions and proactive strategies to reduce behavioral issues and enhance social-emotional well-being. This comprehensive approach will lead to improved academic engagement, better attendance, and overall higher student success for students in USGs.</p>	<p>% students responded favorably to safety Attendance rate</p>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	Scope: LEA-wide		
3.5	Action: Equitable and Inclusive School Culture Need: Scope: LEA-wide	Implementing this action will significantly benefit English Learners (ELs), Long Term English Learners (LTELs), Foster Youth (FY), and Socio-Economically Disadvantaged students (SEDs) by fostering an equitable and inclusive school culture. With support from the Support Services Team, schools will build trust and provide comprehensive supports, including restorative and trauma-informed practices, anti-bullying strategies, and social-emotional assistance. These measures will address the unique needs of these students, reduce disciplinary issues, ensure safety, and enhance well-being. This holistic approach will lead to better academic performance, improved attendance, and higher engagement for ELs, LTELs, FY, SEDs, and LGBTQ students.	% students responded favorably to sense of belonging (school connectedness)
3.6	Action: Expanded Learning Opportunities Need: Chronic absenteeism rate 2023-24 All: 14.7% ELs: 16.7% LTELs: NA SED: 14.2% Foster: NA SpEd: 13.5% M-V: 16.4%	This action will meet the needs of USGs including EL/LTEL, SED, and FY by providing expanded learning opportunities outside of regular school hours. These programs offer a safe environment where students can access nutritious snacks, which is particularly beneficial for those who may face food insecurity. Enrichment experiences and athletic opportunities support physical and social development, while academic supports help address learning gaps and improve academic performance. These extended opportunities foster a well-rounded education, enhance student engagement, and contribute to better academic outcomes and overall well-being for these vulnerable groups.	Chronic absenteeism rate

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>(See 2023 Dashboard schools and student group matrix in the reflection section of this document.)</p> <p>Scope: LEA-wide</p>		
<p>3.7</p>	<p>Action: Wrap Around Services</p> <p>Need: Chronic absenteeism rate 2023-24 All: 14.7% ELs: 16.7% LTELs: NA SED: 14.2% Foster: NA SpEd: 13.5% M-V: 16.4%</p> <p>Suspension rates All: 4.0% ELs: 4.6% LTELs: NA SED: 3.4% Foster: NA SpEd: 3.8% M-V: 9.1%</p> <p>High school graduation rates All: 98.0% ELs: 100.0% LTELs: NA SED: 97.6%</p>	<p>This action addresses the needs of USGs by removing barriers and enhancing educational persistence through providing transportation and basic necessities for SED including homeless and Migrant education eligible students, EL/LTELs and FY. These supports ensure students have what they need to attend school regularly and focus on learning. Wrap-around services like home visits and outreach strengthen family connections and address home challenges, while prioritizing restorative practices over punitive actions fosters a supportive environment that encourages positive behavior and attendance, ultimately improving academic success and engagement.</p>	<p>Chronic absenteeism rate Pupil suspension rates - (% students with at least 1 suspension) Pupil expulsion rates</p>

<p>3.9</p>	<p>Action: Differentiated Assistance - Wellness</p> <p>Need: Suspension rates Foster: NA</p> <p>(See 2023 Dashboard schools and student group matrix in the reflection section of this document.)</p> <p>Scope: LEA-wide</p>	<p>This action will meet the needs of Foster Youth, particularly those requiring behavioral supports, by implementing a structured and proactive approach. Monthly progress monitoring of suspensions, office referrals, incidents of bullying/harassment, and the use of restorative practices allows schools to identify behavioral issues early. By reviewing this data regularly, schools can provide timely, tiered interventions tailored to the specific needs of Foster Youth. Early intervention helps prevent escalation of behavioral issues, promotes positive behavior, and supports the emotional and social well-being of these students. This proactive strategy ensures that Foster Youth receive the necessary support to succeed academically and socially.</p>	<p>Pupil suspension rates - Foster Youth (% students with at least 1 suspension)</p>
<p>3.10</p>	<p>Action: Professional Learning- Wellness</p> <p>Need: Chronic absenteeism rate 2023-24 All: 14.7% ELs: 16.7%</p>	<p>This action will enhance staff capacity to support targeted students by offering professional learning on key areas. Educators will be trained in PBIS and Progressive Discipline Practices, fostering positive behavior and addressing disciplinary issues, while also promoting diversity, cultural proficiency, and inclusive interactions, including</p>	<p>Chronic Absenteeism Rate Suspension Rates</p>

For any limited action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage, as applicable.

All limited actions contributing to meeting the increased or improved services requirement have specific expenditures of LCAP funding.

Additional Concentration Grant Funding

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

If the concentration add-on funding is insufficient to meet these ratios, the funding will be prioritized for those school sites with unduplicated pupil percentages that exceed the district average of 71% to maintain the ratios above at these sites.

Actions that were utilized to meet this requirement includes Action 1.04 (class size reduction), Action 1.05 (Preschool Teachers/TK Assistants), 1.09 (Preschool Paraprofessionals) and Actions 1.10 and 1.11 (Bilingual Instructional Assistants).

Staff-to-student ratios by type of school and concentration of unduplicated students	Schools with a student concentration of 55 percent or less	Schools with a student concentration of greater than 55 percent
Staff-to-student ratio of classified staff providing direct services to students	NA	<p>School-wide classified ratios for staff who provide direct service to school sites such as instructional assistants, paraprofessionals, preschool teachers and assistants, library media techs, and after/before school instructional providers and assistants. Student-to-Classified Staff Ratio</p> <p>TK - 12 School ALA 15.6:1</p>
Staff-to-student ratio of certificated staff providing direct services to students	NA	<p>Classroom ratios TK 20 students: 1 certificated teacher (1 certificated and 1 other teacher or paraprofessional staff member) Grades K-5 20 students: 1 certificated teacher Grades 6-8 20 students: 1 certificated teacher Grades 9-12 20 students: 1 certificated teacher</p>

Local Control and Accountability Plan Instructions

[Plan Summary](#)

[Engaging Educational Partners](#)

[Goals and Actions](#)

[Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students](#)

For additional questions or technical assistance related to the completion of the Local Control and Accountability Plan (LCAP) template, please contact the local county office of education (COE), or the California Department of Education's (CDE's) Local Agency Systems Support Office, by phone at 916-319-0809 or by email at LCFF@cde.ca.gov.

Introduction and Instructions

The Local Control Funding Formula (LCFF) requires local educational agencies (LEAs) to engage their local educational partners in an annual planning process to evaluate their progress within eight state priority areas encompassing all statutory metrics (COEs have 10 state priorities). LEAs document the results of this planning process in the LCAP using the template adopted by the State Board of Education.

The LCAP development process serves three distinct, but related functions:

- **Comprehensive Strategic Planning:** The process of developing and annually updating the LCAP supports comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the California School Dashboard (California Education Code [EC] Section 52064[e][1]). Strategic planning that is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students.
- **Meaningful Engagement of Educational Partners:** The LCAP development process should result in an LCAP that reflects decisions made through meaningful engagement (EC Section 52064[e][1]). Local educational partners possess valuable perspectives and insights about an LEA's programs and services. Effective strategic planning will incorporate these perspectives and insights in order to identify potential goals and actions to be included in the LCAP.
- **Accountability and Compliance:** The LCAP serves an important accountability function because the nature of some LCAP template sections require LEAs to show that they have complied with various requirements specified in the LCFF statutes and regulations, most notably:
 - Demonstrating that LEAs are increasing or improving services for foster youth, English learners, including long-term English learners, and low-income students in proportion to the amount of additional funding those students generate under LCFF (EC Section 52064[b][4-6]).
 - Establishing goals, supported by actions and related expenditures, that address the statutory priority areas and statutory metrics (EC sections 52064[b][1] and [2]).
 - **NOTE:** As specified in EC Section 62064(b)(1), the LCAP must provide a description of the annual goals, for all pupils and each subgroup of pupils identified pursuant to EC Section 52052, to be achieved for each of the state priorities. Beginning in 2023–24, EC

Section 52052 identifies long-term English learners as a separate and distinct pupil subgroup with a numerical significance at 15 students.

- Annually reviewing and updating the LCAP to reflect progress toward the goals (EC Section 52064[b][7]).
- Ensuring that all increases attributable to supplemental and concentration grant calculations, including concentration grant add-on funding and/or LCFF carryover, are reflected in the LCAP (EC sections 52064[b][6], [8], and [11]).

The LCAP template, like each LEA’s final adopted LCAP, is a document, not a process. LEAs must use the template to memorialize the outcome of their LCAP development process, which must: (a) reflect comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the California School Dashboard (Dashboard), (b) through meaningful engagement with educational partners that (c) meets legal requirements, as reflected in the final adopted LCAP. The sections included within the LCAP template do not and cannot reflect the full development process, just as the LCAP template itself is not intended as a tool for engaging educational partners.

If a county superintendent of schools has jurisdiction over a single school district, the county board of education and the governing board of the school district may adopt and file for review and approval a single LCAP consistent with the requirements in EC sections 52060, 52062, 52066, 52068, and 52070. The LCAP must clearly articulate to which entity’s budget (school district or county superintendent of schools) all budgeted and actual expenditures are aligned.

The revised LCAP template for the 2024–25, 2025–26, and 2026–27 school years reflects statutory changes made through Senate Bill 114 (Committee on Budget and Fiscal Review), Chapter 48, Statutes of 2023 and Senate Bill 153, Chapter 38, Statutes of 2024.

At its most basic, the adopted LCAP should attempt to distill not just what the LEA is doing for students in transitional kindergarten through grade twelve (TK–12), but also allow educational partners to understand why, and whether those strategies are leading to improved opportunities and outcomes for students. LEAs are strongly encouraged to use language and a level of detail in their adopted LCAPs intended to be meaningful and accessible for the LEA’s diverse educational partners and the broader public.

In developing and finalizing the LCAP for adoption, LEAs are encouraged to keep the following overarching frame at the forefront of the strategic planning and educational partner engagement functions:

Given present performance across the state priorities and on indicators in the Dashboard, how is the LEA using its budgetary resources to respond to TK–12 student and community needs, and address any performance gaps, including by meeting its obligation to increase or improve services for foster youth, English learners, and low-income students?

LEAs are encouraged to focus on a set of metrics and actions which, based on research, experience, and input gathered from educational partners, the LEA believes will have the biggest impact on behalf of its TK–12 students.

These instructions address the requirements for each section of the LCAP but may include information about effective practices when developing the LCAP and completing the LCAP document. Additionally, the beginning of each template section includes information emphasizing the purpose that section serves.

Plan Summary

Purpose

A well-developed Plan Summary section provides a meaningful context for the LCAP. This section provides information about an LEA's community as well as relevant information about student needs and performance. In order to present a meaningful context for the rest of the LCAP, the content of this section should be clearly and meaningfully related to the content included throughout each subsequent section of the LCAP.

Requirements and Instructions

General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA. LEAs may also provide information about their strategic plan, vision, etc.

Briefly describe the LEA, its schools, and its students in grades TK–12, as applicable to the LEA.

- For example, information about an LEA in terms of geography, enrollment, employment, the number and size of specific schools, recent community challenges, and other such information the LEA may wish to include can enable a reader to more fully understand the LEA's LCAP.
- LEAs may also provide information about their strategic plan, vision, etc.
- As part of this response, identify all schools within the LEA receiving Equity Multiplier funding.

Reflections: Annual Performance

A reflection on annual performance based on a review of the California School Dashboard (Dashboard) and local data.

Reflect on the LEA's annual performance on the Dashboard and local data. This may include both successes and challenges identified by the LEA during the development process.

LEAs are encouraged to highlight how they are addressing the identified needs of student groups, and/or schools within the LCAP as part of this response.

As part of this response, the LEA must identify the following, which will remain unchanged during the three-year LCAP cycle:

- Any school within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard;
- Any student group within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard; and/or
- Any student group within a school within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard.

EC Section 52064.4 requires that an LEA that has unexpended Learning Recovery Emergency Block Grant (LREBG) funds must include one or more actions funded with LREBG funds within the 2025-26, 2026-27 and 2027-28 LCAPs, as applicable to the LEA. To implement the requirements of EC Section 52064.4, all LEAs must do the following:

- For the 2025–26, 2026–27, and 2027–28 LCAP years, identify whether or not the LEA has unexpended LREBG funds for the applicable LCAP year.
 - If the LEA has unexpended LREBG funds the LEA must provide the following:
 - The goal and action number for each action that will be funded, either in whole or in part, with LREBG funds; and
 - An explanation of the rationale for selecting each action funded with LREBG funds. This explanation must include:
 - An explanation of how the action is aligned with the allowable uses of funds identified in [EC Section 32526\(c\)\(2\)](#); and
 - An explanation of how the action is expected to address the area(s) of need of students and schools identified in the needs assessment required by [EC Section 32526\(d\)](#).
 - For information related to the allowable uses of funds and the required needs assessment, please see the Program Information tab on the [LREBG Program Information](#) web page.
 - Actions may be grouped together for purposes of these explanations.
 - The LEA may provide these explanations as part of the action description rather than as part of the Reflections: Annual Performance.
 - If the LEA does not have unexpended LREBG funds, the LEA is not required to conduct the needs assessment required by EC Section 32526(d), to provide the information identified above or to include actions funded with LREBG funds within the 2025-26, 2026-27 and 2027-28 LCAPs.

Reflections: Technical Assistance

As applicable, a summary of the work underway as part of technical assistance.

Annually identify the reason(s) the LEA is eligible for or has requested technical assistance consistent with EC sections 47607.3, 52071, 52071.5, 52072, or 52072.5, and provide a summary of the work underway as part of receiving technical assistance. The most common form of this technical assistance is frequently referred to as Differentiated Assistance, however this also includes LEAs that have requested technical assistance from their COE.

- If the LEA is not eligible for or receiving technical assistance, the LEA may respond to this prompt as “Not Applicable.”

Comprehensive Support and Improvement

An LEA with a school or schools identified for comprehensive support and improvement (CSI) under the Every Student Succeeds Act must respond to the following prompts:

Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

- Identify the schools within the LEA that have been identified for CSI.

Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

- Describe how the LEA has or will support the identified schools in developing CSI plans that included a school-level needs assessment, evidence-based interventions, and the identification of any resource inequities to be addressed through the implementation of the CSI plan.

Monitoring and Evaluating Effectiveness

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

- Describe how the LEA will monitor and evaluate the implementation and effectiveness of the CSI plan to support student and school improvement.

Engaging Educational Partners

Purpose

Significant and purposeful engagement of parents, students, educators, and other educational partners, including those representing the student groups identified by LCFF, is critical to the development of the LCAP and the budget process. Consistent with statute, such engagement should support comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the Dashboard, accountability, and improvement across the state priorities and locally identified priorities (EC Section 52064[e][1]). Engagement of educational partners is an ongoing, annual process.

This section is designed to reflect how the engagement of educational partners influenced the decisions reflected in the adopted LCAP. The goal is to allow educational partners that participated in the LCAP development process and the broader public to understand how the LEA engaged educational partners and the impact of that engagement. LEAs are encouraged to keep this goal in the forefront when completing this section.

Requirements

Requirements

School districts and COEs: [EC Section 52060\(q\)](#) and [EC Section 52066\(q\)](#) specify the educational partners that must be consulted when developing the LCAP:

- Teachers,

- Principals,
- Administrators,
- Other school personnel,
- Local bargaining units of the LEA,
- Parents, and
- Students

A school district or COE receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Before adopting the LCAP, school districts and COEs must share it with the applicable committees, as identified below under Requirements and Instructions. The superintendent is required by statute to respond in writing to the comments received from these committees. School districts and COEs must also consult with the special education local plan area administrator(s) when developing the LCAP.

Charter schools: [EC Section 47606.5\(d\)](#) requires that the following educational partners be consulted with when developing the LCAP:

- Teachers,
- Principals,
- Administrators,
- Other school personnel,
- Parents, and
- Students

A charter school receiving Equity Multiplier funds must also consult with educational partners at the school generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for the school.

The LCAP should also be shared with, and LEAs should request input from, schoolsite-level advisory groups, as applicable (e.g., schoolsite councils, English Learner Advisory Councils, student advisory groups, etc.), to facilitate alignment between schoolsite and district-level goals. Information and resources that support effective engagement, define student consultation, and provide the requirements for advisory group composition, can be found under Resources on the [CDE's LCAP webpage](#).

Before the governing board/body of an LEA considers the adoption of the LCAP, the LEA must meet the following legal requirements:

- For school districts, see [Education Code Section 52062](#);
 - **Note:** Charter schools using the LCAP as the School Plan for Student Achievement must meet the requirements of *EC* Section 52062(a).
- For COEs, see [Education Code Section 52068](#); and
- For charter schools, see [Education Code Section 47606.5](#).

- **NOTE:** As a reminder, the superintendent of a school district or COE must respond, in writing, to comments received by the applicable committees identified in the *Education Code* sections listed above. This includes the parent advisory committee and may include the English learner parent advisory committee and, as of July 1, 2024, the student advisory committee, as applicable.

Instructions

Respond to the prompts as follows:

A summary of the process used to engage educational partners in the development of the LCAP.

School districts and county offices of education must, at a minimum, consult with teachers, principals, administrators, other school personnel, local bargaining units, parents, and students in the development of the LCAP.

Charter schools must, at a minimum, consult with teachers, principals, administrators, other school personnel, parents, and students in the development of the LCAP.

An LEA receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Complete the table as follows:

Educational Partners

Identify the applicable educational partner(s) or group(s) that were engaged in the development of the LCAP.

Process for Engagement

Describe the engagement process used by the LEA to involve the identified educational partner(s) in the development of the LCAP. At a minimum, the LEA must describe how it met its obligation to consult with all statutorily required educational partners, as applicable to the type of LEA.

- A sufficient response to this prompt must include general information about the timeline of the process and meetings or other engagement strategies with educational partners. A response may also include information about an LEA's philosophical approach to engaging its educational partners.
- An LEA receiving Equity Multiplier funds must also include a summary of how it consulted with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

A description of how the adopted LCAP was influenced by the feedback provided by educational partners.

Describe any goals, metrics, actions, or budgeted expenditures in the LCAP that were influenced by or developed in response to the educational partner feedback.

- A sufficient response to this prompt will provide educational partners and the public with clear, specific information about how the engagement process influenced the development of the LCAP. This may include a description of how the LEA prioritized requests of educational partners within the context of the budgetary resources available or otherwise prioritized areas of focus within the LCAP.
- An LEA receiving Equity Multiplier funds must include a description of how the consultation with educational partners at schools generating Equity Multiplier funds influenced the development of the adopted LCAP.
- For the purposes of this prompt, this may also include, but is not necessarily limited to:
 - Inclusion of a goal or decision to pursue a Focus Goal (as described below)
 - Inclusion of metrics other than the statutorily required metrics
 - Determination of the target outcome on one or more metrics
 - Inclusion of performance by one or more student groups in the Measuring and Reporting Results subsection
 - Inclusion of action(s) or a group of actions
 - Elimination of action(s) or group of actions
 - Changes to the level of proposed expenditures for one or more actions
 - Inclusion of action(s) as contributing to increased or improved services for unduplicated students
 - Analysis of effectiveness of the specific actions to achieve the goal
 - Analysis of material differences in expenditures
 - Analysis of changes made to a goal for the ensuing LCAP year based on the annual update process
 - Analysis of challenges or successes in the implementation of actions

Goals and Actions

Purpose

Well-developed goals will clearly communicate to educational partners what the LEA plans to accomplish, what the LEA plans to do in order to accomplish the goal, and how the LEA will know when it has accomplished the goal. A goal statement, associated metrics and expected outcomes, and the actions included in the goal must be in alignment. The explanation for why the LEA included a goal is an opportunity for LEAs to clearly communicate to educational partners and the public why, among the various strengths and areas for improvement highlighted by performance data and strategies and actions that could be pursued, the LEA decided to pursue this goal, and the related metrics, expected outcomes, actions, and expenditures.

A well-developed goal can be focused on the performance relative to a metric or metrics for all students, a specific student group(s), narrowing performance gaps, or implementing programs or strategies expected to impact outcomes. LEAs should assess the performance of their student groups when developing goals and the related actions to achieve such goals.

Requirements and Instructions

LEAs should prioritize the goals, specific actions, and related expenditures included within the LCAP within one or more state priorities. LEAs must consider performance on the state and local indicators, including their locally collected and reported data for the local indicators that are included in the Dashboard, in determining whether and how to prioritize its goals within the LCAP. As previously stated, strategic planning that

is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students, and to address and reduce disparities in opportunities and outcomes between student groups indicated by the Dashboard.

In order to support prioritization of goals, the LCAP template provides LEAs with the option of developing three different kinds of goals:

- Focus Goal: A Focus Goal is relatively more concentrated in scope and may focus on a fewer number of metrics to measure improvement. A Focus Goal statement will be time bound and make clear how the goal is to be measured.
 - All Equity Multiplier goals must be developed as focus goals. For additional information, see Required Focus Goal(s) for LEAs Receiving Equity Multiplier Funding below.
- Broad Goal: A Broad Goal is relatively less concentrated in its scope and may focus on improving performance across a wide range of metrics.
- Maintenance of Progress Goal: A Maintenance of Progress Goal includes actions that may be ongoing without significant changes and allows an LEA to track performance on any metrics not addressed in the other goals of the LCAP.

Requirement to Address the LCFF State Priorities

At a minimum, the LCAP must address all LCFF priorities and associated metrics articulated in *EC* sections 52060(d) and 52066(d), as applicable to the LEA. The [LCFF State Priorities Summary](#) provides a summary of *EC* sections 52060(d) and 52066(d) to aid in the development of the LCAP.

Respond to the following prompts, as applicable:

Focus Goal(s)

Description

The description provided for a Focus Goal must be specific, measurable, and time bound.

- An LEA develops a Focus Goal to address areas of need that may require or benefit from a more specific and data intensive approach.
- The Focus Goal can explicitly reference the metric(s) by which achievement of the goal will be measured and the time frame according to which the LEA expects to achieve the goal.

Type of Goal

Identify the type of goal being implemented as a Focus Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA has chosen to prioritize this goal.

- An explanation must be based on Dashboard data or other locally collected data.
- LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners.
- LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.

Required Focus Goal(s) for LEAs Receiving Equity Multiplier Funding

Description

LEAs receiving Equity Multiplier funding must include one or more focus goals for each school generating Equity Multiplier funding. In addition to addressing the focus goal requirements described above, LEAs must adhere to the following requirements.

Focus goals for Equity Multiplier schoolsites must address the following:

- (A) All student groups that have the lowest performance level on one or more state indicators on the Dashboard, and
- (B) Any underlying issues in the credentialing, subject matter preparation, and retention of the school’s educators, if applicable.
- Focus Goals for each and every Equity Multiplier schoolsite must identify specific metrics for each identified student group, as applicable.
- An LEA may create a single goal for multiple Equity Multiplier schoolsites if those schoolsites have the same student group(s) performing at the lowest performance level on one or more state indicators on the Dashboard or, experience similar issues in the credentialing, subject matter preparation, and retention of the school’s educators.
 - When creating a single goal for multiple Equity Multiplier schoolsites, the goal must identify the student groups and the performance levels on the Dashboard that the Focus Goal is addressing; or,
 - The common issues the schoolsites are experiencing in credentialing, subject matter preparation, and retention of the school’s educators, if applicable.

Type of Goal

Identify the type of goal being implemented as an Equity Multiplier Focus Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA has chosen to prioritize this goal.

- An explanation must be based on Dashboard data or other locally collected data.
- LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners.
- LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.
- In addition to this information, the LEA must also identify:
 - The school or schools to which the goal applies

LEAs are encouraged to approach an Equity Multiplier goal from a wholistic standpoint, considering how the goal might maximize student outcomes through the use of LCFF and other funding in addition to Equity Multiplier funds.

- Equity Multiplier funds must be used to supplement, not supplant, funding provided to Equity Multiplier schoolsites for purposes of the LCFF, the Expanded Learning Opportunities Program (ELO-P), the Literacy Coaches and Reading Specialists (LCRS) Grant Program, and/or the California Community Schools Partnership Program (CCSPP).
- This means that Equity Multiplier funds must not be used to replace funding that an Equity Multiplier schoolsite would otherwise receive to implement LEA-wide actions identified in the LCAP or that an Equity Multiplier schoolsite would otherwise receive to implement provisions of the ELO-P, the LCRS, and/or the CCSPP.

Note: [EC Section 42238.024\(b\)\(1\)](#) requires that Equity Multiplier funds be used for the provision of evidence-based services and supports for students. Evidence-based services and supports are based on objective evidence that has informed the design of the service or support and/or guides the modification of those services and supports. Evidence-based supports and strategies are most commonly based on educational research and/or metrics of LEA, school, and/or student performance.

Broad Goal

Description

Describe what the LEA plans to achieve through the actions included in the goal.

- The description of a broad goal will be clearly aligned with the expected measurable outcomes included for the goal.

- The goal description organizes the actions and expected outcomes in a cohesive and consistent manner.
- A goal description is specific enough to be measurable in either quantitative or qualitative terms. A broad goal is not as specific as a focus goal. While it is specific enough to be measurable, there are many different metrics for measuring progress toward the goal.

Type of Goal

Identify the type of goal being implemented as a Broad Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA developed this goal and how the actions and metrics grouped together will help achieve the goal.

Maintenance of Progress Goal

Description

Describe how the LEA intends to maintain the progress made in the LCFF State Priorities not addressed by the other goals in the LCAP.

- Use this type of goal to address the state priorities and applicable metrics not addressed within the other goals in the LCAP.
- The state priorities and metrics to be addressed in this section are those for which the LEA, in consultation with educational partners, has determined to maintain actions and monitor progress while focusing implementation efforts on the actions covered by other goals in the LCAP.

Type of Goal

Identify the type of goal being implemented as a Maintenance of Progress Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain how the actions will sustain the progress exemplified by the related metrics.

Measuring and Reporting Results:

For each LCAP year, identify the metric(s) that the LEA will use to track progress toward the expected outcomes.

- LEAs must identify metrics for specific student groups, as appropriate, including expected outcomes that address and reduce disparities in outcomes between student groups.
- The metrics may be quantitative or qualitative; but at minimum, an LEA’s LCAP must include goals that are measured using all of the applicable metrics for the related state priorities, in each LCAP year, as applicable to the type of LEA.
- To the extent a state priority does not specify one or more metrics (e.g., implementation of state academic content and performance standards), the LEA must identify a metric to use within the LCAP. For these state priorities, LEAs are encouraged to use metrics based on or reported through the relevant local indicator self-reflection tools within the Dashboard.
- **Required metrics for LEA-wide actions:** For each action identified as 1) contributing towards the requirement to increase or improve services for foster youth, English learners, including long-term English learners, and low-income students and 2) being provided on an LEA-wide basis, the LEA must identify one or more metrics to monitor the effectiveness of the action and its budgeted expenditures.
 - These required metrics may be identified within the action description or the first prompt in the increased or improved services section, however the description must clearly identify the metric(s) being used to monitor the effectiveness of the action and the action(s) that the metric(s) apply to.
- **Required metrics for Equity Multiplier goals:** For each Equity Multiplier goal, the LEA must identify:
 - The specific metrics for each identified student group at each specific schoolsite, as applicable, to measure the progress toward the goal, and/or
 - The specific metrics used to measure progress in meeting the goal related to credentialing, subject matter preparation, or educator retention at each specific schoolsite.
- **Required metrics for actions supported by LREBG funds:** To implement the requirements of *EC* Section 52064.4, LEAs with unexpended LREBG funds must include at least one metric to monitor the impact of each action funded with LREBG funds included in the goal.
 - The metrics being used to monitor the impact of each action funded with LREBG funds are not required to be new metrics; they may be metrics that are already being used to measure progress towards goals and actions included in the LCAP.

Complete the table as follows:

Metric #
<ul style="list-style-type: none">• Enter the metric number.
Metric

- Identify the standard of measure being used to determine progress towards the goal and/or to measure the effectiveness of one or more actions associated with the goal.

Baseline

- Enter the baseline when completing the LCAP for 2024–25.
 - Use the most recent data associated with the metric available at the time of adoption of the LCAP for the first year of the three-year plan. LEAs may use data as reported on the 2023 Dashboard for the baseline of a metric only if that data represents the most recent available data (e.g., high school graduation rate).
 - Using the most recent data available may involve reviewing data the LEA is preparing for submission to the California Longitudinal Pupil Achievement Data System (CALPADS) or data that the LEA has recently submitted to CALPADS.
 - Indicate the school year to which the baseline data applies.
 - The baseline data must remain unchanged throughout the three-year LCAP.
 - This requirement is not intended to prevent LEAs from revising the baseline data if it is necessary to do so. For example, if an LEA identifies that its data collection practices for a particular metric are leading to inaccurate data and revises its practice to obtain accurate data, it would also be appropriate for the LEA to revise the baseline data to align with the more accurate data process and report its results using the accurate data.
 - If an LEA chooses to revise its baseline data, then, at a minimum, it must clearly identify the change as part of its response to the description of changes prompt in the Goal Analysis for the goal. LEAs are also strongly encouraged to involve their educational partners in the decision of whether or not to revise a baseline and to communicate the proposed change to their educational partners.
 - Note for Charter Schools: Charter schools developing a one- or two-year LCAP may identify a new baseline each year, as applicable.

Year 1 Outcome

- When completing the LCAP for 2025–26, enter the most recent data available. Indicate the school year to which the data applies.
 - Note for Charter Schools: Charter schools developing a one-year LCAP may provide the Year 1 Outcome when completing the LCAP for both 2025–26 and 2026–27 or may provide the Year 1 Outcome for 2025–26 and provide the Year 2 Outcome for 2026–27.

Year 2 Outcome

- When completing the LCAP for 2026–27, enter the most recent data available. Indicate the school year to which the data applies.

- Note for Charter Schools: Charter schools developing a one-year LCAP may identify the Year 2 Outcome as not applicable when completing the LCAP for 2026–27 or may provide the Year 2 Outcome for 2026–27.

Target for Year 3 Outcome

- When completing the first year of the LCAP, enter the target outcome for the relevant metric the LEA expects to achieve by the end of the three-year LCAP cycle.
 - Note for Charter Schools: Charter schools developing a one- or two-year LCAP may identify a Target for Year 1 or Target for Year 2, as applicable.

Current Difference from Baseline

- When completing the LCAP for 2025–26 and 2026–27, enter the current difference between the baseline and the yearly outcome, as applicable.
 - Note for Charter Schools: Charter schools developing a one- or two-year LCAP will identify the current difference between the baseline and the yearly outcome for Year 1 and/or the current difference between the baseline and the yearly outcome for Year 2, as applicable.

Timeline for school districts and COEs for completing the “**Measuring and Reporting Results**” part of the Goal.

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline

Goal Analysis:

Enter the LCAP Year.

Using actual annual measurable outcome data, including data from the Dashboard, analyze whether the planned actions were effective towards achieving the goal. “Effective” means the degree to which the planned actions were successful in producing the target result. Respond to the prompts as instructed.

Note: When completing the 2024–25 LCAP, use the 2023–24 Local Control and Accountability Plan Annual Update template to complete the Goal Analysis and identify the Goal Analysis prompts in the 2024–25 LCAP as “Not Applicable.”

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

- Describe the overall implementation of the actions to achieve the articulated goal, including relevant challenges and successes experienced with implementation.
 - Include a discussion of relevant challenges and successes experienced with the implementation process.
 - This discussion must include any instance where the LEA did not implement a planned action or implemented a planned action in a manner that differs substantively from how it was described in the adopted LCAP.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

- Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures and between the Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services, as applicable. Minor variances in expenditures or percentages do not need to be addressed, and a dollar-for-dollar accounting is not required.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

- Describe the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal. “Effectiveness” means the degree to which the actions were successful in producing the target result and “ineffectiveness” means that the actions did not produce any significant or targeted result.
 - In some cases, not all actions in a goal will be intended to improve performance on all of the metrics associated with the goal.
 - When responding to this prompt, LEAs may assess the effectiveness of a single action or group of actions within the goal in the context of performance on a single metric or group of specific metrics within the goal that are applicable to the action(s). Grouping actions with metrics will allow for more robust analysis of whether the strategy the LEA is using to impact a specified set of metrics is working and increase transparency for educational partners. LEAs are encouraged to use such an approach when goals include multiple actions and metrics that are not closely associated.
 - Beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

- Describe any changes made to this goal, expected outcomes, metrics, or actions to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard or other local data, as applicable.
 - As noted above, beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period. For actions that have been identified as ineffective, the LEA must identify the ineffective action and must include a description of the following:

- The reasons for the ineffectiveness, and
- How changes to the action will result in a new or strengthened approach.

Actions:

Complete the table as follows. Add additional rows as necessary.

Action

- Enter the action number.

Title

- Provide a short title for the action. This title will also appear in the action tables.

Description

- Provide a brief description of the action.
 - For actions that contribute to meeting the increased or improved services requirement, the LEA may include an explanation of how each action is principally directed towards and effective in meeting the LEA's goals for unduplicated students, as described in the instructions for the Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students section.
 - As previously noted, for each action identified as 1) contributing towards the requirement to increase or improve services for foster youth, English learners, including long-term English learners, and low-income students and 2) being provided on an LEA-wide basis, the LEA must identify one or more metrics to monitor the effectiveness of the action and its budgeted expenditures.
 - These required metrics may be identified within the action description or the first prompt in the increased or improved services section; however, the description must clearly identify the metric(s) being used to monitor the effectiveness of the action and the action(s) that the metric(s) apply to.

Total Funds

- Enter the total amount of expenditures associated with this action. Budgeted expenditures from specific fund sources will be provided in the action tables.

Contributing

- Indicate whether the action contributes to meeting the increased or improved services requirement as described in the Increased or Improved Services section using a “Y” for Yes or an “N” for No.
 - **Note:** for each such contributing action, the LEA will need to provide additional information in the Increased or Improved Services section to address the requirements in *California Code of Regulations*, Title 5 [5 CCR] Section 15496 in the Increased or Improved Services section of the LCAP.

Actions for Foster Youth: School districts, COEs, and charter schools that have a numerically significant foster youth student subgroup are encouraged to include specific actions in the LCAP designed to meet needs specific to foster youth students.

Required Actions

For English Learners and Long-Term English Learners

- LEAs with 30 or more English learners and/or 15 or more long-term English learners must include specific actions in the LCAP related to, at a minimum:
 - Language acquisition programs, as defined in *EC* Section 306, provided to students, and
 - Professional development for teachers.
 - If an LEA has both 30 or more English learners and 15 or more long-term English learners, the LEA must include actions for both English learners and long-term English learners.

For Technical Assistance

- LEAs eligible for technical assistance pursuant to *EC* sections 47607.3, 52071, 52071.5, 52072, or 52072.5, must include specific actions within the LCAP related to its implementation of the work underway as part of technical assistance. The most common form of this technical assistance is frequently referred to as Differentiated Assistance.

For Lowest Performing Dashboard Indicators

- LEAs that have Red Dashboard indicators for (1) a school within the LEA, (2) a student group within the LEA, and/or (3) a student group within any school within the LEA must include one or more specific actions within the LCAP:
 - The specific action(s) must be directed towards the identified student group(s) and/or school(s) and must address the identified state indicator(s) for which the student group or school received the lowest performance level on the 2023 Dashboard. Each student group and/or school that receives the lowest performance level on the 2023 Dashboard must be addressed by one or more actions.
 - These required actions will be effective for the three-year LCAP cycle.

For LEAs With Unexpended LREBG Funds

- To implement the requirements of *EC* Section 52064.4, LEAs with unexpended LREBG funds must include one or more actions supported with LREBG funds within the 2025–26, 2026–27, and 2027–28 LCAPs, as applicable to the LEA. Actions funded with LREBG funds must remain in the LCAP until the LEA has expended the remainder of its LREBG funds, after which time the actions may be removed from the LCAP.
 - Prior to identifying the actions included in the LCAP the LEA is required to conduct a needs assessment pursuant to [EC Section 32526\(d\)](#). For information related to the required needs assessment please see the Program Information tab on the [LREBG](#)

[Program Information](#) web page. Additional information about the needs assessment and evidence-based resources for the LREBG may be found on the [California Statewide System of Support LREBG Resources](#) web page. The required LREBG needs assessment may be part of the LEAs regular needs assessment for the LCAP if it meets the requirements of *EC* Section 32526(d).

- School districts receiving technical assistance and COEs providing technical assistance are encouraged to use the technical assistance process to support the school district in conducting the required needs assessment, the selection of actions funded by the LREBG and/or the evaluation of implementation of the actions required as part of the LCAP annual update process.
- As a reminder, LREBG funds must be used to implement one or more of the purposes articulated in [EC Section 32526\(c\)\(2\)](#).
- LEAs with unexpended LREBG funds must include one or more actions supported by LREBG funds within the LCAP. For each action supported by LREBG funding the action description must:
 - Identify the action as an LREBG action;
 - Include an explanation of how research supports the selected action;
 - Identify the metric(s) being used to monitor the impact of the action; and
 - Identify the amount of LREBG funds being used to support the action.

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students

Purpose

A well-written Increased or Improved Services section provides educational partners with a comprehensive description, within a single dedicated section, of how an LEA plans to increase or improve services for its unduplicated students as defined in *EC* Section 42238.02 in grades TK–12 as compared to all students in grades TK–12, as applicable, and how LEA-wide or schoolwide actions identified for this purpose meet regulatory requirements. Descriptions provided should include sufficient detail yet be sufficiently succinct to promote a broader understanding of educational partners to facilitate their ability to provide input. An LEA’s description in this section must align with the actions included in the Goals and Actions section as contributing.

Please Note: For the purpose of meeting the Increased or Improved Services requirement and consistent with *EC* Section 42238.02, long-term English learners are included in the English learner student group.

Statutory Requirements

An LEA is required to demonstrate in its LCAP how it is increasing or improving services for its students who are foster youth, English learners, and/or low-income, collectively referred to as unduplicated students, as compared to the services provided to all students in proportion to the increase in funding it receives based on the number and concentration of unduplicated students in the LEA (*EC* Section 42238.07[a][1], *EC*

Section 52064[b][8][B]; 5 CCR Section 15496[a]). This proportionality percentage is also known as the “minimum proportionality percentage” or “MPP.” The manner in which an LEA demonstrates it is meeting its MPP is two-fold: (1) through the expenditure of LCFF funds or through the identification of a Planned Percentage of Improved Services as documented in the Contributing Actions Table, and (2) through the explanations provided in the Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students section.

To improve services means to grow services in quality and to increase services means to grow services in quantity. Services are increased or improved by those actions in the LCAP that are identified in the Goals and Actions section as contributing to the increased or improved services requirement, whether they are provided across the entire LEA (LEA-wide action), provided to an entire school (Schoolwide action), or solely provided to one or more unduplicated student group(s) (Limited action).

Therefore, for *any* action contributing to meet the increased or improved services requirement, the LEA must include an explanation of:

- How the action is increasing or improving services for the unduplicated student group(s) (Identified Needs and Action Design), and
- How the action meets the LEA's goals for its unduplicated pupils in the state and any local priority areas (Measurement of Effectiveness).

LEA-wide and Schoolwide Actions

In addition to the above required explanations, LEAs must provide a justification for why an LEA-wide or Schoolwide action is being provided to all students and how the action is intended to improve outcomes for unduplicated student group(s) as compared to all students.

- Conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient.
- Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increased or improved services standard because enrolling students is not the same as serving students.

For School Districts Only

Actions provided on an **LEA-wide** basis at **school districts with an unduplicated pupil percentage of less than 55 percent** must also include a description of how the actions are the most effective use of the funds to meet the district's goals for its unduplicated pupils in the state and any local priority areas. The description must provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Actions provided on a **Schoolwide** basis for **schools with less than 40 percent enrollment of unduplicated pupils** must also include a description of how these actions are the most effective use of the funds to meet the district's goals for its unduplicated pupils in the state and any local priority areas. The description must provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Requirements and Instructions

Complete the tables as follows:

- Specify the amount of LCFF supplemental and concentration grant funds the LEA estimates it will receive in the coming year based on the number and concentration of foster youth, English learner, and low-income students. This amount includes the Additional 15 percent LCFF Concentration Grant.

Projected Additional 15 percent LCFF Concentration Grant

- Specify the amount of additional LCFF concentration grant add-on funding, as described in *EC* Section 42238.02, that the LEA estimates it will receive in the coming year.

Projected Percentage to Increase or Improve Services for the Coming School Year

- Specify the estimated percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year as calculated pursuant to 5 *CCR* Section 15496(a)(7).

LCFF Carryover — Percentage

- Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).

LCFF Carryover — Dollar

- Specify the LCFF Carryover — Dollar amount identified in the LCFF Carryover Table. If a carryover amount is not identified in the LCFF Carryover Table, specify an amount of zero (\$0).

Total Percentage to Increase or Improve Services for the Coming School Year

- Add the Projected Percentage to Increase or Improve Services for the Coming School Year and the Proportional LCFF Required Carryover Percentage and specify the percentage. This is the LEA’s percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year, as calculated pursuant to 5 *CCR* Section 15496(a)(7).

Required Descriptions:

LEA-wide and Schoolwide Actions

For each action being provided to an entire LEA or school, provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) for whom the action is principally directed, (2) how the action is designed to address the identified need(s) and why it is being provided on an LEA or schoolwide basis, and (3) the metric(s) used to measure the effectiveness of the action in improving outcomes for the unduplicated student group(s).

If the LEA has provided this required description in the Action Descriptions, state as such within the table.

Complete the table as follows:

Identified Need(s)

Provide an explanation of the unique identified need(s) of the LEA’s unduplicated student group(s) for whom the action is principally directed.

An LEA demonstrates how an action is principally directed towards an unduplicated student group(s) when the LEA explains the need(s), condition(s), or circumstance(s) of the unduplicated student group(s) identified through a needs assessment and how the action addresses them. A meaningful needs assessment includes, at a minimum, analysis of applicable student achievement data and educational partner feedback.

How the Action(s) are Designed to Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis

Provide an explanation of how the action as designed will address the unique identified need(s) of the LEA’s unduplicated student group(s) for whom the action is principally directed and the rationale for why the action is being provided on an LEA-wide or schoolwide basis.

- As stated above, conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient.
- Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increased or improved services standard because enrolling students is not the same as serving students.

Metric(s) to Monitor Effectiveness

Identify the metric(s) being used to measure the progress and effectiveness of the action(s).

Note for COEs and Charter Schools: In the case of COEs and charter schools, schoolwide and LEA-wide are considered to be synonymous.

Limited Actions

For each action being solely provided to one or more unduplicated student group(s), provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) being served, (2) how the action is designed to address the identified need(s), and (3) how the effectiveness of the action in improving outcomes for the unduplicated student group(s) will be measured.

If the LEA has provided the required descriptions in the Action Descriptions, state as such.

Complete the table as follows:

Identified Need(s)

Provide an explanation of the unique need(s) of the unduplicated student group(s) being served identified through the LEA’s needs assessment. A meaningful needs assessment includes, at a minimum, analysis of applicable student achievement data and educational partner feedback.

How the Action(s) are Designed to Address Need(s)

Provide an explanation of how the action is designed to address the unique identified need(s) of the unduplicated student group(s) being served.

Metric(s) to Monitor Effectiveness

Identify the metric(s) being used to measure the progress and effectiveness of the action(s).

For any limited action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage, as applicable.

- For each action with an identified Planned Percentage of Improved Services, identify the goal and action number and describe the methodology that was used.
- When identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.
- For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which, based on the LEA's current pay scale, the LEA estimates would cost \$165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of \$165,000 by the amount of LCFF Funding identified in the Total Planned Expenditures Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Services for the action.

Additional Concentration Grant Funding

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

An LEA that receives the additional concentration grant add-on described in *EC* Section 42238.02 is required to demonstrate how it is using these funds to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent as compared to the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is equal to or less than 55 percent. The staff who provide direct services to students must be certificated staff and/or classified staff employed by the LEA; classified staff includes custodial staff.

Provide the following descriptions, as applicable to the LEA:

- An LEA that does not receive a concentration grant or the concentration grant add-on must indicate that a response to this prompt is not applicable.

- Identify the goal and action numbers of the actions in the LCAP that the LEA is implementing to meet the requirement to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent.
- An LEA that does not have comparison schools from which to describe how it is using the concentration grant add-on funds, such as a single-school LEA or an LEA that only has schools with an enrollment of unduplicated students that is greater than 55 percent, must describe how it is using the funds to increase the number of credentialed staff, classified staff, or both, including custodial staff, who provide direct services to students at selected schools and the criteria used to determine which schools require additional staffing support.
- In the event that an additional concentration grant add-on is not sufficient to increase staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent, the LEA must describe how it is using the funds to retain staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent.

Complete the table as follows:

- Provide the staff-to-student ratio of classified staff providing direct services to students with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of classified staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA.
 - The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA.
 - The staff-to-student ratio must be based on the number of full-time equivalent (FTE) staff and the number of enrolled students as counted on the first Wednesday in October of each year.
- Provide the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA.
 - The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA.
 - The staff-to-student ratio must be based on the number of FTE staff and the number of enrolled students as counted on the first Wednesday in October of each year.

Action Tables

Complete the Total Planned Expenditures Table for each action in the LCAP. The information entered into this table will automatically populate the other Action Tables. Information is only entered into the Total Planned Expenditures Table, the Annual Update Table, the Contributing Actions Annual Update Table, and the LCFF Carryover Table. The word “input” has been added to column headers to aid in identifying the column(s) where information will be entered. Information is not entered on the remaining Action tables.

The following tables are required to be included as part of the LCAP adopted by the local governing board or governing body:

- Table 1: Total Planned Expenditures Table (for the coming LCAP Year)
- Table 2: Contributing Actions Table (for the coming LCAP Year)
- Table 3: Annual Update Table (for the current LCAP Year)
- Table 4: Contributing Actions Annual Update Table (for the current LCAP Year)
- Table 5: LCFF Carryover Table (for the current LCAP Year)

Note: The coming LCAP Year is the year that is being planned for, while the current LCAP year is the current year of implementation. For example, when developing the 2024–25 LCAP, 2024–25 will be the coming LCAP Year and 2023–24 will be the current LCAP Year.

Total Planned Expenditures Table

In the Total Planned Expenditures Table, input the following information for each action in the LCAP for that applicable LCAP year:

- **LCAP Year:** Identify the applicable LCAP Year.
- **1. Projected LCFF Base Grant:** Provide the total amount estimated LCFF entitlement for the coming school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Block Grant program, the former Home-to-School Transportation program, and the Small School District Transportation program, pursuant to 5 CCR Section 15496(a)(8). Note that the LCFF Base Grant for purposes of the LCAP also includes the Necessary Small Schools and Economic Recovery Target allowances for school districts, and County Operations Grant for COEs.

See *EC* sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF entitlement calculations.

- **2. Projected LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants estimated on the basis of the number and concentration of unduplicated students for the coming school year.
- **3. Projected Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected LCFF Base Grant and the Projected LCFF Supplemental and/or Concentration Grants, pursuant to 5 CCR Section 15496(a)(8). This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the coming LCAP year.
- **LCFF Carryover — Percentage:** Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table from the prior LCAP year. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).
- **Total Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected Percentage to Increase or Improve Services for the Coming School Year and the LCFF Carryover —

Percentage. ***This is the percentage by which the LEA must increase or improve services for unduplicated pupils as compared to the services provided to all students in the coming LCAP year.***

- **Goal #:** Enter the LCAP Goal number for the action.
- **Action #:** Enter the action's number as indicated in the LCAP Goal.
- **Action Title:** Provide a title of the action.
- **Student Group(s):** Indicate the student group or groups who will be the primary beneficiary of the action by entering "All," or by entering a specific student group or groups.
- **Contributing to Increased or Improved Services?:** Type "Yes" if the action **is** included as contributing to meeting the increased or improved services requirement; OR, type "No" if the action is **not** included as contributing to meeting the increased or improved services requirement.
- If "Yes" is entered into the Contributing column, then complete the following columns:
 - **Scope:** The scope of an action may be LEA-wide (i.e., districtwide, countywide, or charterwide), schoolwide, or limited. An action that is LEA-wide in scope upgrades the entire educational program of the LEA. An action that is schoolwide in scope upgrades the entire educational program of a single school. An action that is limited in its scope is an action that serves only one or more unduplicated student groups.
 - **Unduplicated Student Group(s):** Regardless of scope, contributing actions serve one or more unduplicated student groups. Indicate one or more unduplicated student groups for whom services are being increased or improved as compared to what all students receive.
 - **Location:** Identify the location where the action will be provided. If the action is provided to all schools within the LEA, the LEA must indicate "All Schools." If the action is provided to specific schools within the LEA or specific grade spans only, the LEA must enter "Specific Schools" or "Specific Grade Spans." Identify the individual school or a subset of schools or grade spans (e.g., all high schools or grades transitional kindergarten through grade five), as appropriate.
- **Time Span:** Enter "ongoing" if the action will be implemented for an indeterminate period of time. Otherwise, indicate the span of time for which the action will be implemented. For example, an LEA might enter "1 Year," or "2 Years," or "6 Months."
- **Total Personnel:** Enter the total amount of personnel expenditures utilized to implement this action.
- **Total Non-Personnel:** This amount will be automatically calculated based on information provided in the Total Personnel column and the Total Funds column.

- **LCFF Funds:** Enter the total amount of LCFF funds utilized to implement this action, if any. LCFF funds include all funds that make up an LEA’s total LCFF target (i.e., base grant, grade span adjustment, supplemental grant, concentration grant, Targeted Instructional Improvement Block Grant, and Home-To-School Transportation).
 - **Note:** For an action to contribute towards meeting the increased or improved services requirement, it must include some measure of LCFF funding. The action may also include funding from other sources, however the extent to which an action contributes to meeting the increased or improved services requirement is based on the LCFF funding being used to implement the action.
- **Other State Funds:** Enter the total amount of Other State Funds utilized to implement this action, if any.
 - **Note:** Equity Multiplier funds must be included in the “Other State Funds” category, not in the “LCFF Funds” category. As a reminder, Equity Multiplier funds must be used to supplement, not supplant, funding provided to Equity Multiplier schoolsites for purposes of the LCFF, the ELO-P, the LCRS, and/or the CCSPP. This means that Equity Multiplier funds must not be used to replace funding that an Equity Multiplier schoolsite would otherwise receive to implement LEA-wide actions identified in the LEA’s LCAP or that an Equity Multiplier schoolsite would otherwise receive to implement provisions of the ELO-P, the LCRS, and/or the CCSPP.
- **Local Funds:** Enter the total amount of Local Funds utilized to implement this action, if any.
- **Federal Funds:** Enter the total amount of Federal Funds utilized to implement this action, if any.
- **Total Funds:** This amount is automatically calculated based on amounts entered in the previous four columns.
- **Planned Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis to unduplicated students, and that does not have funding associated with the action, enter the planned quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%). A limited action is an action that only serves foster youth, English learners, and/or low-income students.
 - As noted in the instructions for the Increased or Improved Services section, when identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.

For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which, based on the LEA’s current pay scale, the LEA estimates would cost \$165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of \$165,000 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Services for the action.

Contributing Actions Table

As noted above, information will not be entered in the Contributing Actions Table; however, the ‘Contributing to Increased or Improved Services?’ column will need to be checked to ensure that only actions with a “Yes” are displaying. If actions with a “No” are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the “Yes” responses.

Annual Update Table

In the Annual Update Table, provide the following information for each action in the LCAP for the relevant LCAP year:

- **Estimated Actual Expenditures:** Enter the total estimated actual expenditures to implement this action, if any.

Contributing Actions Annual Update Table

In the Contributing Actions Annual Update Table, check the ‘Contributing to Increased or Improved Services?’ column to ensure that only actions with a “Yes” are displaying. If actions with a “No” are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the “Yes” responses. Provide the following information for each contributing action in the LCAP for the relevant LCAP year:

- **6. Estimated Actual LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants estimated based on the number and concentration of unduplicated students in the current school year.
- **Estimated Actual Expenditures for Contributing Actions:** Enter the total estimated actual expenditure of LCFF funds used to implement this action, if any.
- **Estimated Actual Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis only to unduplicated students, and that does not have funding associated with the action, enter the total estimated actual quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%).
 - Building on the example provided above for calculating the Planned Percentage of Improved Services, the LEA in the example implements the action. As part of the annual update process, the LEA reviews implementation and student outcome data and determines that the action was implemented with fidelity and that outcomes for foster youth students improved. The LEA reviews the original estimated cost for the action and determines that had it hired additional staff to collect and analyze data and to coordinate supports for students that estimated actual cost would have been \$169,500 due to a cost of living adjustment. The LEA would divide the estimated actual cost of \$169,500 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Estimated Actual Percentage of Improved Services for the action.

LCFF Carryover Table

- **9. Estimated Actual LCFF Base Grant:** Provide the total amount of estimated LCFF Target Entitlement for the current school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Block Grant program,

the former Home-to-School Transportation program, and the Small School District Transportation program, pursuant to 5 CCR Section 15496(a)(8). Note that the LCFF Base Grant for purposes of the LCAP also includes the Necessary Small Schools and Economic Recovery Target allowances for school districts, and County Operations Grant for COEs. See EC sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF entitlement calculations.

- **10. Total Percentage to Increase or Improve Services for the Current School Year:** This percentage will not be entered. The percentage is calculated based on the amounts of the Estimated Actual LCFF Base Grant (9) and the Estimated Actual LCFF Supplemental and/or Concentration Grants (6), pursuant to 5 CCR Section 15496(a)(8), plus the LCFF Carryover – Percentage from the prior year. This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the current LCAP year.

Calculations in the Action Tables

To reduce the duplication of effort of LEAs, the Action Tables include functionality such as pre-population of fields and cells based on the information provided in the Data Entry Table, the Annual Update Summary Table, and the Contributing Actions Table. For transparency, the functionality and calculations used are provided below.

Contributing Actions Table

- **4. Total Planned Contributing Expenditures (LCFF Funds)**
 - This amount is the total of the Planned Expenditures for Contributing Actions (LCFF Funds) column.
- **5. Total Planned Percentage of Improved Services**
 - This percentage is the total of the Planned Percentage of Improved Services column.
- **Planned Percentage to Increase or Improve Services for the coming school year (4 divided by 1, plus 5)**
 - This percentage is calculated by dividing the Total Planned Contributing Expenditures (4) by the Projected LCFF Base Grant (1), converting the quotient to a percentage, and adding it to the Total Planned Percentage of Improved Services (5).

Contributing Actions Annual Update Table

Pursuant to EC Section 42238.07(c)(2), if the Total Planned Contributing Expenditures (4) is less than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the LEA is required to calculate the difference between the Total Planned Percentage of Improved Services (5) and the Total Estimated Actual Percentage of Improved Services (7). If the Total Planned Contributing Expenditures (4) is equal to or greater than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the Difference Between Planned and Estimated Actual Percentage of Improved Services will display “Not Required.”

- **6. Estimated Actual LCFF Supplemental and Concentration Grants**

- This is the total amount of LCFF supplemental and concentration grants the LEA estimates it will actually receive based on the number and concentration of unduplicated students in the current school year.
- **4. Total Planned Contributing Expenditures (LCFF Funds)**
 - This amount is the total of the Last Year's Planned Expenditures for Contributing Actions (LCFF Funds).
- **7. Total Estimated Actual Expenditures for Contributing Actions**
 - This amount is the total of the Estimated Actual Expenditures for Contributing Actions (LCFF Funds).
- **Difference Between Planned and Estimated Actual Expenditures for Contributing Actions (Subtract 7 from 4)**
 - This amount is the Total Estimated Actual Expenditures for Contributing Actions (7) subtracted from the Total Planned Contributing Expenditures (4).
- **5. Total Planned Percentage of Improved Services (%)**
 - This amount is the total of the Planned Percentage of Improved Services column.
- **8. Total Estimated Actual Percentage of Improved Services (%)**
 - This amount is the total of the Estimated Actual Percentage of Improved Services column.
- **Difference Between Planned and Estimated Actual Percentage of Improved Services (Subtract 5 from 8)**
 - This amount is the Total Planned Percentage of Improved Services (5) subtracted from the Total Estimated Actual Percentage of Improved Services (8).

LCFF Carryover Table

- **10. Total Percentage to Increase or Improve Services for the Current School Year (6 divided by 9 plus Carryover %)**
 - This percentage is the Estimated Actual LCFF Supplemental and/or Concentration Grants (6) divided by the Estimated Actual LCFF Base Grant (9) plus the LCFF Carryover – Percentage from the prior year.
- **11. Estimated Actual Percentage of Increased or Improved Services (7 divided by 9, plus 8)**
 - This percentage is the Total Estimated Actual Expenditures for Contributing Actions (7) divided by the LCFF Funding (9), then converting the quotient to a percentage and adding the Total Estimated Actual Percentage of Improved Services (8).
- **12. LCFF Carryover — Dollar Amount LCFF Carryover (Subtract 11 from 10 and multiply by 9)**

- If the Estimated Actual Percentage of Increased or Improved Services (11) is less than the Estimated Actual Percentage to Increase or Improve Services (10), the LEA is required to carry over LCFF funds.

The amount of LCFF funds is calculated by subtracting the Estimated Actual Percentage to Increase or Improve Services (11) from the Estimated Actual Percentage of Increased or Improved Services (10) and then multiplying by the Estimated Actual LCFF Base Grant (9). This amount is the amount of LCFF funds that is required to be carried over to the coming year.

- **13. LCFF Carryover — Percentage (12 divided by 9)**

- This percentage is the unmet portion of the Percentage to Increase or Improve Services that the LEA must carry over into the coming LCAP year. The percentage is calculated by dividing the LCFF Carryover (12) by the LCFF Funding (9).
